Book 3* Donald F. Lach, Edwin J. Van Kley, 1998-12-15 This monumental series acclaimed as a masterpiece of comprehensive scholarship in the New York Times Book Review reveals the impact of Asia's high civilizations on the development of modern Western society The authors examine the ways in which European encounters with Asia have altered the development of Western society art literature science and religion since the Renaissance In Volume III A Century of Advance the authors have researched seventeenth century European writings on Asia in an effort to understand how contemporaries saw Asian societies and peoples *Scuttle Your Ships Before Advancing* Richard A. Luecke, 1994 In the spring of 1942 Japan's Admiral Yamamoto devised an ingenious strategy to attack Midway Island and deliver the knockout punch of the war in the Pacific His elegant operational plan which involved elaborate traps and diversions and required clockwork coordination was founded on complete faith that he could predict the Americans every move But the perfect plan went wrong and Japan's elite Strike Force was crushed losing four carriers over three hundred aircraft and 2 500 men What can today's business managers learn from Yamamoto's stunning defeat at the Battle of Midway A great deal according to Richard Luecke and in *Scuttle Your Ships Before Advancing* he illuminates lessons to be learned from Yamamoto and other leaders who have faced memorable crises We find for instance the epitome of decisiveness and entrepreneurialism in Hernan Cortes as he and a small band of 16th century adventurers risked everything in a bold gamble for the Aztec empire the book's title *Scuttle Your Ships* refers to Cortes

strategy that kept his men moving forward Underdogs who would challenge the status quo can look to France's Louis XI the Spider King and learn how he undermined entrenched rivals through patience and cunning The Emperor Hadrian in his consolidation of the sprawling Roman Empire provides a brilliant model for managing today's multinational corporation And attitudes toward technology and innovation are vividly illustrated by the 15th century Battle of Agincourt in which the stubborn refusal of the French to adopt their English enemy's weapon the longbow led to their massacre From these and other historical episodes Luecke shows how leadership daring and artful administration meant the difference between success and failure He draws explicit lessons for managers from these long ago events and he also reveals parallels in the recent experiences of major corporations from GM to Shearson Lehman And along the way he evokes portraits of Martin Luther W Edwards Deming and other visionaries as they struggled with the timeless challenges of authority change and human conflict Those who do not learn from the past are doomed to repeat it Skillfully narrated inspiring yet down to earth Scuttle Your Ships Before Advancing serves up powerful historical lessons for all who would manage and lead in the twenty first century
