Asia Looks Seaward Power And Maritime Strategy Praeger Security International:

Asia Looks Seaward Toshi Yoshihara, James R. Holmes, 2008 **Asia Looks Seaward** Toshi Yoshihara, James R. Holmes, 2007-11-30 Asia is headed toward an uncertain and potentially volatile future in the maritime arena The two rising Asian powers China and India dependent as they are on seaborne commerce for their economic well being have clearly set their eyes on the high seas Yoshihara and Holmes offer a stark warning that many strategists in Beijing and New Delhi appear spellbound by the more militant visions of sea power Indeed both powers appear poised to develop the capacity to control the sea lanes through which the bulk of their commerce flows If they enter the nautical environment with such a martial mindset Asia could very well fall victim to regional rivalries that give rise to a vicious cycle of competition Yoshihara and Holmes provide the first examination of the simultaneous rise of two naval powers and the potential impact that such an oceanic reconfiguration of power in Asia could have on long term regional stability Their study analyzes the maritime interests and strategies of the littoral states in Asia as they prepare for the expected reordering of nautical affairs This long overdue assessment revisits underlying assumptions that have prevailed among strategy makers and provides a concrete policy framework for reducing the risk of confrontation in Asian waters **Asian Maritime Power in the 21st Century** Vijay Sakhuja, 2011 Maritime power has been a key defining parameter of economic vitality and geostrategic power of nations This book explores how the first decade of the 21st century has witnessed the rise of China and India as confident economic powers pivoting on high growth rates exponential expansion of science technology and industrial growth *Eurasia's Maritime Rise and Global Security* Geoffrey F. Gresh, 2018-04-04 This book explores Eurasia's growing embrace of its maritime geography from the Indian Ocean to Pacific Asia and the Arctic In an age of climate change the melting of the Arctic will transform Eurasia's importance in addition to influencing the political economic and military dynamics across Eurasia's main maritime regions These emerging shifts have already begun to alter maritime trade and investment patterns and thus the global political economy It also creates a rising threat to the current status quo of world order that has long been dominated by the Atlantic World This edited volume showcases some of the world's leading experts and examines Eurasia from a saltwater perspective analyzing its main maritime spaces in a threefold manner as avenue as arena as source to show the significance of this geostrategic change and why it matters for the future of the world's oceans *India's Naval Strategy and Asian Security* Anit Mukherjee, C. Raja Mohan, 2015-11-19 This book examines India's naval strategy within the context of Asian regional security Amidst the intensifying geopolitical contestation in the waters of Asia this book investigates the growing strategic salience of the Indian Navy Delhi's expanding economic and military strength has generated a widespread debate on India's prospects for shaping the balance of power in Asia This volume provides much needed texture to the abstract debate on India's rise by focusing on the changing nature of India's maritime orientation the recent evolution of its naval strategy and its emerging defence diplomacy In tracing the drift of the Navy from the margins of Delhi's national

security consciousness to a central position analysing the tension between its maritime possibilities and the continentalist mind set and in examining the gap between the growing external demands for its security contributions and internal ambivalence this volume offers rare insights into India's strategic direction at a critical moment in the nation's evolution By examining the internal and external dimensions of the Indian naval future both of which are in dynamic flux the essays here help a deeper understanding of India's changing international possibilities and its impact on Asian and global security This book will be of much interest to students of naval strategy Asian politics security studies and IR in general
