

Aspecten Van Holland

Chaya Brasz, Yosef Kaplan

Aspecten Van Holland:

The Nobility of Holland Henk F. K. van Nierop, 1993-03-25 This is the first full scale analysis of the social and political transformation of the nobility of Holland during the revolt against Spain in the sixteenth and seventeenth centuries In the age of Rembrandt nobles seemed to have been obliterated by the rising bourgeois merchants However in this study of the impact of the Dutch revolt the author finds that Dutch nobles were extremely successful in maintaining their positions within the supposedly bourgeois Republic forming the elite in administrative political and economic systems This is a revised edition of van Nierop s widely acclaimed Dutch publication The Rise and Decline of Holland's Economy J. L. van Zanden, 1993

The Political Economy of the Dutch Republic Oscar Gelderblom, 2016-02-24 In the first half of the seventeenth century the Dutch Republic emerged as one of Europe s leading maritime powers The political and military leadership of this small country was based on large scale borrowing from an increasingly wealthy middle class of merchants manufacturers and regents This volume presents the first comprehensive account of the political economy of the Dutch republic from the sixteenth to the early nineteenth century Building on earlier scholarship and extensive new evidence it tackles two main issues the effect of political revolution on property rights and public finance and the ability of the nation to renegotiate issues of taxation and government borrowing in changing political circumstances The essays in this volume chart the Republic s rise during the seventeenth century and its subsequent decline as other European nations adopted the Dutch financial model and warfare bankrupted the state in the eighteenth century By following the United Provinces s financial ability to respond to the changing national and international circumstances across a three hundred year period much can be learned not only about the Dutch experience but the wider European implications as well **The Bloomsbury Handbook of Spinoza** Wiep van Bunge, Henri Krop, Piet Steenbakkers, Jeroen M.M. van de Ven, 2024-08-22 This 2nd edition Handbook of Spinoza retains a unique focus on the biographical details of Spinoza s life as well as essential scholarship on his influences and early critics A glossary of key Latin Spinozan terms with English translations remains a key feature alongside short synopses of Spinoza s writings Adding to the updated contemporary scholarship on Spinoza from across Europe and the US is the recognition of Spinoza s influence more globally Distinct from other reference works on Spinoza this book offers the tools and methodology necessary for students and scholars who are completing their own research Accompanying each main section is an updated and detailed bibliography that situates both the summative and original scholarship therein This 2nd edition includes a revised biography from Jeroen van de Ven who has systematically revisited the archive influences will now include reference to Machiavelli and Hobbes primarily as well as remarks on the De La Court brothers La Per yre and Delmedigo A new entry on the critic Willem van Blijenbergh alongside a reconstruction of dozens of letters now lost from Spinoza consolidates new directions of study which are supported by additional glossary terms on Axioma cf Ordo geometricus Definitio ibid Excommunicare Lumen Methodus Negatio Pax Ratio Cf Cognitio Scientia intuitiva and Tempus amongst others Maintaining

an approach that is refreshingly independent of the historicist analytic continental divide this work features scholars from across these traditions and remains an essential point of reference for students and scholars alike *Calvinism and Religious Toleration in the Dutch Golden Age* R. Po-Chia Hsia, Henk Van Nierop, 2002-08-01 Dutch society has enjoyed a reputation or notoriety for permissiveness from the sixteenth century to present times The Dutch Republic in the Golden Age was the only society that tolerated religious dissenters of all persuasions in early modern Europe despite being committed to a strictly Calvinist public Church Professors R Po chia Hsia and Henk van Nierop have brought together a group of leading historians from the US the UK and the Netherlands to probe the history and myth of this Dutch tradition of religious tolerance This 2002 collection of outstanding essays reconsiders and revises contemporary views of Dutch tolerance Taken as a whole the volume s innovative scholarship offers unexpected insights into this important topic in religious and cultural history **Jan van Naaldwijk's Chronicles of Holland** Sjoerd Levelt, 2011 The little known author Jan van Naaldwijk whose two early sixteenth century Dutch chronicles of Holland are preserved in autograph manuscripts in the British Library wrote at a moment reputed to be the turning point between medieval and Renaissance modes of historical writing While he primarily relied on the medieval historical tradition of Holland he expanded it in ways that allow us to appreciate the broader impact of innovations occurring at the same time in more professional scholarly circles This is the first in depth study of these chronicles and their relation to their sources placed in the wider context of history writing running from the mid fourteenth century into the eighteenth providing new insights into the continuities and transitions that characterized the historical tradition of Holland from the late middle ages well into the early modern period An accompanying cd rom contains transcriptions of both Jan s chronicles Winner of the Society for Renaissance Studies Book Prize 2012 Short listed for the Royal Historical Society Gladstone Prize 2012 **Urban Water Trajectories** Sarah Bell, Adriana Allen, Pascale Hofmann, Tse-Hui Teh, 2016-10-22 Water is an essential element in the future of cities It shapes cities locations form ecology prosperity and health The changing nature of urbanisation climate change water scarcity environmental values globalisation and social justice mean that the models of provision of water services and infrastructure that have dominated for the past two centuries are increasingly infeasible Conventional arrangements for understanding and managing water in cities are being subverted by a range of natural technological political economic and social changes The prognosis for water in cities remains unclear and multiple visions and discourses are emerging to fill the space left by the certainty of nineteenth century urban water planning and engineering This book documents a sample of those different trajectories in terms of water transformations option services and politics Water is a key element shaping urban form economies and lifestyles part of the ongoing transformation of cities Cities are faced with a range of technical and policy options for future water systems Water is an essential urban service but models of provision remain highly contested with different visions for ownership of infrastructure the scale of provision and the level of service demanded by users Water is a contentious political issue in the

future of cities serving different urban interests as power and water seem to flow in the same direction Cities in Africa Asia Australia Europe and South America provide case studies and emerging water challenges and responses Comparison across different contexts demonstrates how the particular and the universal intersect in complex ways to generate new trajectories for urban water

Dutch Jews as Perceived by Themselves and by Others Chaya Brasz,Yosef Kaplan,2021-11-22 How did Jews in the Netherlands view themselves and how were they viewed by others This is the single theme around which the twenty five essays in this volume written by scholars from the Netherlands Israel and other countries revolve The studies encompass a variety of topics and periods from the beginning of the Jewish settlement in the Dutch Republic through the Shoah and its aftermath They include examinations of the Sephardi Jews in the seventeenth and eighteenth centuries the Jews in the periods of Emancipation and Enlightenment social and cultural encounters between Jews and non Jews throughout the ages the image of the Jew in Dutch literature in the nineteenth and twentieth centuries and the churches attitudes toward Jews Also highlighted are the second World War and its consequences Dutch Jews in Israel and Israelis in the contemporary Netherlands

Ideology and Foreign Policy in Early Modern Europe (1650-1750) Gijs Rommelse,2016-05-13 The years 1650 to 1750 sandwiched between an age of wars of religion and an age of revolutionary wars have often been characterized as a de ideologized period However the essays in this collection contend that this is a mistaken assumption For whilst international relations during this time may lack the obvious polarization between Catholic and Protestant visible in the proceeding hundred years or the highly charged contest between monarchies and republics of the late eighteenth century it is forcibly argued that ideology had a fundamental part to play in this crucial transformative stage of European history Many early modernists have paid little attention to international relations theory often taking a Realist approach that emphasizes the anarchism materialism and power political nature of international relations In contrast this volume provides alternative perspectives viewing international relations as socially constructed and influenced by ideas ideology and identities Building on such theoretical developments allows international relations after 1648 to be fundamentally reconsidered by putting political and economic ideology firmly back into the picture By engaging with and building upon recent theoretical developments this collection treads new terrain Not only does it integrate cultural history with high politics and foreign policy it also engages directly with themes discussed by political scientists and international relations theorists As such it offers a fresh and genuinely interdisciplinary approach to this complex and fundamental period in Europe s development

The Strictures of Inheritance Jan Luiten van Zanden,Arthur van Riel,2021-04-13 A major feat of research and synthesis this book presents the first comprehensive history of the Dutch economy in the nineteenth century an important but poorly understood piece of European economic history Based on a detailed reconstruction of extensive economic data the authors account for demise of the Dutch economy s golden age After showing how institutional factors combined to make the Dutch economy a victim of its own success the book traces its subsequent emergence as a modern

industrial economy Between 1780 and 1914 the Netherlands went through a double transition Its economy which in the words of Adam Smith was approaching a stationary state in the eighteenth century entered a process of modern economic growth during the middle decades of the nineteenth At the same time the country s sociopolitical structure was undergoing radical transformation as the decentralized polity of the republic gave way to a unitary state As the authors show the dramatic transformation of the Dutch political structure was intertwined with equally radical changes in the institutional structure of the economy The outcome of this dual transition was a rapidly industrializing economy on one side and on the other the neocorporatist sociopolitical structure that would characterize the Netherlands in the twentieth century Analyzing both processes with a focus on institutional change this book argues that the economic and political development of the Netherlands can be understood only in tandem

Whispering the Techniques of Language: An Emotional Quest through **Aspecten Van Holland**

In a digitally-driven world wherever screens reign great and instant transmission drowns out the subtleties of language, the profound secrets and emotional subtleties hidden within phrases frequently get unheard. However, situated within the pages of **Aspecten Van Holland** a interesting fictional value sporting with fresh feelings, lies a fantastic quest waiting to be undertaken.
