Los desafíos de los sistemas de justicia en Iberoamérica Santiago Pereira Campos, Giovanni F. Priori

Posada, 2025-08-14 En tiempos de profunda tensión democrática desconfianza en la administración de justicia y desafíos inditos para los sistemas judiciales el derecho procesal no puede permanecer ajeno. Este libro recoge una selección rigurosa de las ponencias presentadas en el marco de las XXVIII Jornadas Iberoamericanas de Derecho Procesal celebradas en Lima en abril de 2025 y constituye una valiosa radiografía de los problemas que atraviesan la justicia en Iberoamérica. Distribuidos en cinco grandes ejes temáticos: la ejecución civil, los precedentes judiciales, la flexibilización procesal, la inteligencia artificial y el proceso en línea, los trabajos aquí compilados ofrecen una mirada crítica comparada y actualizada sobre los retos más urgentes del proceso judicial contemporáneo. No se trata solo de reflexionar sobre las instituciones procesales sino de examinar su capacidad de respuesta frente a un contexto marcado por la desigualdad, el debilitamiento del Estado de derecho y la demanda social por una justicia más eficaz, cercana y legítima. Este libro es en ese sentido una herramienta para pensar el futuro del proceso judicial en clave iberoamericana.

El matrimonio canónico en el derecho civil español José Tomás

Martín de Agar y Valverde, 1985

Derecho procesal contemporáneo Dimaro Agudelo Mejía, Liliana Damaris Pabón

Giraldo, Luis Orlando Toro Garzón, Mónica María Bustamante Rúa, Orión Vargas Vélez, 2018-02-01 En la mayoría de los Estados del mundo el derecho procesal contiene como medio de defensa la generalidad de la impugnación y la especialidad de los recursos como parte integral del instituto de la impugnación para control general de las decisiones de los jueces que por alguna circunstancia se desvían del sendero propio de la pronta, cumplida y eficaz justicia al momento de proferir las providencias dentro de los procesos que vienen rituando por el ruego de quienes están insatisfechos con sus derechos constitucionales y legales¹. En el procesalismo judicial como lo advierte la jurisprudencia adoctrinada, estos medios de control son necesarios para poner fin al desvío de los principios de la autonomía e independencia de los jueces que, no obstante la presunción de buena fe respecto de su imparcialidad, se descuidan en la emisión de sus decisiones y olvidan su deber de garantizar a la sociedad que jurídicamente son objetivas², erguidas en el principio de un tratamiento igual para todas las personas y que solo se deben a la Constitución y a la ley donde se inculca y asigna la tarea de protección efectiva de los derechos fundamentales, además de ser el punto de confluencia del derecho y la realidad de cuya adecuada interrelación depende la justicia de una determinación.
