Britain On The Couch:

Britain on the Couch Oliver James, 2010 Cultural Pessimism Oliver Bennett, 2019-06-01 A provocative and wide ranging analysis of the cultural mood of anxiety and pessimism in the early 21st century **The Maternalists** Shaul Bar-Haim, 2021-08-06 The Maternalists is a study of the hitherto unexplored significance of utopian visions of the state as a maternal entity in mid twentieth century Britain Demonstrating the affinities between welfarism maternalism and psychoanalysis Shaul Bar Haim suggests a new reading of the British welfare state as a political project After the First World War British doctors social thinkers educators and policy makers became increasingly interested in the contemporary turn being made in psychoanalytic theory toward the role of motherhood in child development These public figures used new notions of the maternal to criticize modern European culture and especially its patriarchal domestic structure This strand of thought was pioneered by figures who were well placed to disseminate their ideas into the higher echelons of British culture education and medical care Figures such as the anthropologists Bronislaw Malinowski and Geza R heim and the psychiatrist Ian Suttie to mention only a few of the maternalists discussed in the book used psychoanalytic vocabulary to promote both imagined perceptions of motherhood and their idea of the real essence of the maternal In the 1930s as European fascism took hold the maternal became a cultural discourse of both collective social anxieties and fantasies as well as a central concept in many strands of radical and even utopian political thinking During the Second World War and even more so in the postwar era psychoanalysts such as D W Winnicott and Michael Balint responded to the horrors of the war by drawing on interwar maternalistic thought making a demand to maternalize British society and providing postwar Britain with a new political idiom for defining the welfare state as a project of collective care *Petty Tyranny and Soulless Discipline?* Claire Hilton, 2025-07-01 High expectations for a better world followed the First World War Many changes took place aligned with progress but in England the poorest benefited little from them This was all too evident in the nation s public mental hospitals Patients were their raison d tre yet their experiences show that they sat at the foot of the country s priorities Petty Tyranny and Soulless Discipline places patients at its centre to explore their daily lives including their admission care treatment discharge and after care or death These narratives drawn from a range of primary sources are contextualised in an historical analysis of how and why a mixture of stagnating and changing knowledge attitudes and ideals affected patients experiences The Lunacy Act 1890 underpinned life in the mental hospitals by setting out their organisation regulation and funding A variety of professionals campaigners for reform central government departments local authorities trades unions and voluntary organisations often with competing agendas influenced what happened to patients There was also new medical knowledge from Britain and beyond This book weaves these strands into a coherent whole to reveal the complexity of mental health provision in the past and enable reflection that might inform debate today *Nine Wartime Lives* James Hinton, Mass-Observation, 2010-01-14 A fascinating re evaluation of the social history of the second world war looking at the

diaries kept by nine ordinary people in wartime Britain for the Mass Observation social research organization

Regionalizing Science Simon Naylor, 2016-09-12 Victorian England as is well known produced an enormous amount of scientific endeavour but what has previously been overlooked is the important role of geography on these developments Naylor seeks to rectify this imbalance by presenting a historical geography of regional science Taking an in depth look at the county of Cornwall questions on how science affected provincial Victorian society how it changed people's relationship with the landscape and how it shaped society are applied to the Cornish case study allowing a depth and texture of analysis denied to more general scientific overviews of the period

Loe Bar and the Sandhill Rustic Moth Adrian Spalding, 2015-08-11 In *Loe Bar and the Sandhill Rustic Moth* Adrian Spalding examines the survival of plants and animals on

Loe Bar a shingle beach on the coast of Cornwall in the context of its history geomorphology and exposure to the Atlantic environment He develops these themes within a detailed study of the Sandhill Rustic moth that endures this harsh environment where storm surges high salinity high temperatures strong winds and burial by sand affect the wildlife that occurs there

Britain's Second Embassy to China Caroline Stevenson, 2021-02-01 Lord Amherst's diplomatic mission to the Qing Court in 1816 was the second British embassy to China The first led by Lord Macartney in 1793 had failed to achieve its goals It was thought that Amherst had better prospects of success but the intense diplomatic encounter that greeted his arrival ended badly Amherst never appeared before the Jiaqing emperor and his embassy was expelled from Peking on the day it arrived Historians have blamed Amherst for this outcome citing his over reliance on the advice of his Second Commissioner Sir George Thomas Staunton not to kowtow before the emperor Detailed analysis of British sources reveal that Amherst was well informed on the kowtow issue and made his own decision for which he took full responsibility Success was always unlikely because of irreconcilable differences in approach China's conduct of foreign relations based on the tributary system required submission to the emperor thus relegating all foreign emissaries and the rulers they represented to vassal status whereas British diplomatic practice was centred on negotiation and Westphalian principles of equality between nations The Amherst embassy's failure revised British assessments of China and led some observers to believe that force rather than diplomacy might be required in future to achieve British goals The Opium War of 1840 that followed set a precedent for foreign interference in China resulting in a century of humiliation This resonates today in President Xi Jinping's call for National Rejuvenation to restore China's historic place at the centre of a new Sino centric global order
