Beyond the Frontline Tony Geraghty, 1996 **BRIXMIS and the Secret Cold War** Andrew Long, 2024-09-30 A detailed account of British intelligence operations in Cold War East Germany revealing Soviet and East German military secrets from 1946 to 1990 The German Democratic Republic or East Germany was the frontline in the Cold War packed with hundreds of thousands of Soviet and East German troops armed with the latest Warsaw Pact equipment lined up along the 1 400 km Inner German Border However because of the repressive East German police state little human intelligence about these forces reached the West Who were they Where were they located What were they doing How were they equipped What were their intentions NATO was lined up in West Germany to face these forces and relied on getting up to date intelligence to warn of any threat Indicators of Hostility that could be a precursor to an invasion BRIXMIS the British Commanders in Chief Mission to the Soviet Forces in Germany was on hand to provide that intelligence Thanks to an obscure 1946 agreement between the British and Soviets that established liaison missions in their respective zones of occupation the British were able to send highly qualified military observers into East Germany to roam relatively freely and keep an eye on what was going on What started as liaison a point of contact between the British and Soviet occupation forces developed into a very sophisticated intelligence collection operation sending tours out every day of the year between 1946 and when the Mission closed in 1990 These tours were undertaken in high performance highly modified marked vehicles with personnel in uniform and unarmed apart from professional photographic equipment and occasionally some top secret gadgets from the boffins back in the UK They joined their French and American colleagues in snooping around the opposition photographing military bases equipment and maneuvers and trying to evade capture by the secret police and counterintelligence units They faced danger and violence daily but thanks to their bravery and professionalism the West had accurate and up to date information on what was happening in East Germany which helped keep the peace all that time This is the story of this little known unit and their exploits behind enemy lines *Beyond the Front Line* Tony GERAGHTY, 1996 *Secret Service in the Cold War* John B. Sanderson, Myles Sanderson, 2020-04-17 The action packed biography of a British intelligence officer who took part in major political events of the 20th Century before and during the Cold War World War II had been won but relationships between the Western Allies and the Soviet Union were weakening as the nuclear arms race made world peace precarious Britain needed to know the Soviets intentions and military capabilities A Secret Intelligence Service officer Lieutenant Colonel John Sanderson had the job of finding out This is his story Based on Sanderson s letters and personal accounts of his time with MI4 and MI6 this biography details his handling of secret agents behind the Iron Curtain at the height of the Cold War and organization of hidden arms depots He observed the Paris UNO Security Council in 1948 and recruited migrants for infiltration into Communist Bulgaria He also reported on the Communist show trials in Sofia in 1949 Twelve years later London tasked him to photograph the latest MIG fighter with the help of a CIA colleague His getaway wasn t easy Sanderson

s early service life was equally challenging from defending Britain's coastline in 1940 picking up downed pilots during the Battle of Britain to fighting Japanese forces in Asian jungles before returning to London to join the Secret Intelligence Services. For a hundred years GCHQ Government Communications Headquarters has been at the forefront of British secret statecraft. Born out of the need to support military operations in the First World War and fought over ever since today it is the UK's biggest intelligence security and cyber agency and a powerful tool of the British state. Famed primarily for its codebreaking achievements at Bletchley Park against Enigma ciphers in the Second World War GCHQ has intercepted interpreted and disrupted the information networks of Britain's foes for a century and yet it remains the least known and understood of British intelligence services. It has been one of the most open minded too. GCHQ has always demanded a diversity of intellectual firepower finding it in places which strike us as ground breaking today and allying it to the efforts of ordinary men and women to achieve extraordinary insights in war diplomacy and peace. GCHQ shapes British decision making more than any other intelligence organisation and along with its partners in the Five Eyes intelligence partnership including the United States National Security Agency has become ever more crucial in an age governed by information technology. Based on unprecedented access to documents in GCHQ's archive many of them hitherto classified this is the first book to authoritatively explain the entire history of one of the world's most potent intelligence agencies. Many major contemporary conflicts between Russia and the West between Arab nations and Israel between state security and terrorism become fully explicable only in the light of the secret intelligence record. Written by one of the world's leading experts in intelligence and strategy *Behind the Enigma* reveals the fascinating truth behind this most remarkable and enigmatic of organisations.

the secret services of NATO and the Warsaw Pact fought an ongoing duel in the dark Throughout the Cold War espionage was part of everyday life in both East and West Berlin with German spies playing a crucial part of operations on both sides Erich Mielke's Stasi and Reinhard Gehlen's Federal Intelligence Service for example The construction of the wall in 1961 changed the political situation and the environment for espionage the invisible front was now concreted and unmistakable But the fundamentals had not changed Berlin was and would remain the capital of spies until the fall of the Berlin Wall a fact that makes it all the more surprising that there are hardly any books about the work of the secret services in Berlin during the Cold War Now in this compelling volume journalist Sven Felix Kellerhoff and historian Bernd von Kostka describe the spectacular successes and failures of the various secret services based in the city Engaging and useful Journal of Military History
