The Selection of Politicians in Times of Crisis Xavier Collier, Guillermo Cordero, Antonio M. Jaime-Castillo, 2018-04-27
Selecting candidates for elections is a major goal of political parties and a major function of political regimes in democratic systems. With the negative effects of the economic crisis being seen to translate into changes in voting patterns and citizens using elections to punish parties in government for their roles in economic mismanagement or lack of response to the global economic crisis, a broad examination is required. This book is presented as the first comparative study of the effects of the political crisis on candidate selection covering a large number of countries. Using an integrated framework and unified strategy, it examines how new relevant political actors are really implementing participative ways of candidate selection, whether they are being innovative in their political environments and the extent to which traditionally mainstream parties are changing selection procedures to have more open and inclusive mechanisms as part of internal or intra-party democracy. The book illuminates these issues through empirically driven chapters explaining changes in the way candidates for parliaments are selected in countries where new parties have emerged and consolidated or where traditional mainstream parties have adopted new mechanisms of selection affecting if not challenging traditional politics. Additionally, therefore, this work will serve as a response to some current debates in the discipline on the consequences of the democratization of party life relating to political participation and representation. This text will be of key interest to scholars and students of political parties, organizational change, social and political elites, and more broadly to comparative politics and sociology. [Crisis Elections, New Contenders and Government Formation](#) Anna Bosco, Susannah Verney, 2018-12-07
The parliamentary elections of 2015-16 in Greece, Spain, and Portugal had extraordinary consequences, bringing repeat elections, unprecedented processes of government formation, and uncharted government outcomes. Greece formed a coalition of radical left and radical right, and Portugal its first government supported by the communist party, while Spain took ten months to get a government. These developments are especially astonishing in three states which in previous decades were a byword for democratic stability. After the transitions following the fall of their dictatorships in the 1970s, Greece, Spain, and Portugal established bipolar electoral competition and predictable patterns of government formation. But more recently, all three countries have been in the frontline of the economic crisis and austerity implementation, triggering electoral realignments and turning the radical left into a major player. This volume offers essential understanding of the political destabilisation of Southern Europe. It includes detailed analyses of all five crisis elections and of Greece's bailout referendum. It also provides studies of the five new contender parties: SYRIZA, Podemos, Ciudadanos, the Bloco Esquerda, and the Portuguese Communist Party, which played a key role in government formation for the first time. The chapters, originally published as a special issue in *South European Society and Politics*. **Anti-Neoliberal Populisms in Comparative Perspective** Enrico Padoa-Schioppa, 2020-11-15
In this book, Enrico Padoa-Schioppa proposes an original middle-range theory to explain the emergence and the internal organisation of anti-

neoliberal populist parties in Latin America and Southern Europe and the relationships between these parties and the organised working class Padoa-Schioppa begins by tracing the diverging evolution of the electoral Lefts in Latin America and Southern Europe in the aftermath of economic crises and during the implementation of austerity measures within many of these nations A causal typology for interpreting the possible outcomes of the realignments within the electoral Lefts is proposed Hereafter the volume features five empirical chapters four of which focus on the rise of anti neoliberal populist parties in Bolivia Argentina Spain and Italy while a fifth offers an analysis on four shadow cases in Venezuela Uruguay Portugal and Greece Scholars of Latin America and Comparative Politics will find *Anti Neoliberal Populisms in Comparative Perspective* a highly valuable resource offering a distinctive perspective on the impact of different populisms on party systems and on the challenges that such populisms posed to syndicalism and to traditional left of centre parties *The Impact of the Economic Crisis on South European Democracies* Leonardo Morlino, Francesco Raniolo, 2017-03-30 This book questions whether and to what extent a conjunctural phenomenon such as an economic crisis can bring about lasting political consequences It focuses on the parties and party systems of four South European countries Portugal Spain Italy and Greece between 2008 15 The authors also consider how elections protests and interests are affected by the crisis in these four democracies before assessing how to define the impact of the economic crisis on political participation and competition In this vein the book analyzes relevant aspects of party systems the notion of neo populism as a key to understanding new actors of South European policy and interest intermediation as a factor of weakness in managing the crisis Finally the authors summarize the empirical results emerging from the research the partial reshaping of cleavages as well as the relevance of the establishment vs anti establishment cleavage for the emergence and success of neo populist parties The book will be of use to students and scholars interested in South European politics comparative politics and democracies

Populist Parties and Democratic Resilience Ben Crum, Alvaro Oleart, 2023-02-02 *Populist Parties and Democratic Resilience* focuses on populist parties as the main agents of populism and examines when these parties turn anti democratic and when they remain loyal to the democratic system Following the Brexit referendum the election of Donald Trump and the rise of populist parties around the globe many observers suggested that democracy was in serious trouble Nevertheless while some democratic systems have been seized by populists most of them have proven resilient In this volume the authors identify the conditions under which populist parties become inimical to political and societal pluralism They offer in depth analyses of the trajectory of populist parties in eleven European Union countries Austria Belgium Czech Republic France Germany Hungary Italy The Netherlands Poland Romania and Spain The book shows that reflecting the diversity of national contexts there are multiple pathways whereby populist parties power can remain contained and subject to democratic checks and balances Moreover populist parties can at times voluntarily at other times by force of external conditions come to adhere to the democratic rules of the game On this basis the volume outlines different ways in which European democracies can

successfully accommodate populist parties through strategies that carefully navigate between the extremes of uncritical acceptance and outright ostracization Drawing on the literature on democratic theory and comparative politics this book directly contributes to the public debate on the state of democracy in Europe It will be of interest to researchers of comparative politics European politics party politics democracy and populism **Democratizing Candidate Selection**

Guillermo Cordero,Xavier Collier,2018-06-30 This book studies the challenges to conventional politics posed by new ways of selecting candidates for legislative elections The recent economic crisis had profound political consequences on politics generating an upsurge in the demand for more participative ways of decision making in politics channelled through social movements and individuals in different countries Some parties have reacted by introducing changes in their internal organization via intra party democracy particularly related to the selection of candidates for public office This volume explores the trends and challenges of these new methods of selection analyses how the internet is increasingly being used as a selection tool and evaluates some of the relevant consequences related to political representation party cohesion and party centralization among others *Asaltar los cielos* José Ignacio Torreblanca,2015-04-09 Un análisis lido y objetivo del fenómeno político que ha revolucionado la política y la sociedad española El sorprendente e indiscutible éxito cosechado en las

pasadas elecciones europeas por Podemos 1 240 000 votos y cinco escaños una formación recién creada ha supuesto un terremoto en la política española confirmado por sucesivas encuestas el bipartidismo podría haber acabado dando paso a un sistema político completamente nuevo De dónde viene Podemos Y a dónde quiere ir Esas son las dos preguntas que se hace todo ciudadano español y a las que José Ignacio Torreblanca profesor de ciencia política y agudo comentarista de la realidad española contesta en *Asaltar los cielos* Analizando el contexto en el que surge la profunda y duradera crisis económica y el descrédito de las instituciones pasa a estudiar el ideario en que se basa la demanda popular a la que responde y las estrategias que sigue Un libro accesible para todo el mundo y una herramienta fundamental para entender esta nueva etapa de la política española en un año plagado de citas electorales que se antoja trascendental *The Politics of the Eurozone*

Crisis in Southern Europe Leonardo Morlino,Cecilia Emma Sottile,2019-11-18 This book provides an in depth account of the politics of the Eurozone crisis in Italy Spain Greece Portugal Cyprus and Malta mapping the positions expressed by the governments of Southern EU countries during the Eurozone crisis negotiations including Greece's bailout deal the so called Six Pack and the Fiscal Compact and exploring the process of domestic preference formation The book relies on original data resulting from fieldwork conducted in the context of the EU Commission funded Horizon 2020 project The Choice for Europe since Maastricht **Comunicación política** Enrique Gil Calvo,2018-12-14 Aunque los discursos en torno al poder han existido en todas las sociedades en rigor solo podemos hablar de comunicación política a partir de la instauración de las

democracias representativas con la aparición de la opinión pública vinculada a las libertades de información y expresión y de los medios de comunicación de masas en la actualidad los mass media prensa radiotelevisión y los new media Twitter Facebook

De sus conexiones y de sus efectos paradójicos trata este libro para intentar plantear en qué medida asistimos a una mediatización de la política o a una politización de lo mediático y comprender cómo se logra pasar del inmediato y sorpresivo golpe de efecto al converso acto de fe. Un ensayo de sociología política que reflexiona sobre la evolución reciente de la democracia de su transformación y de sus crisis a causa del exceso de eficacia de la comunicación política sobre todo a partir del recurso a las técnicas de marketing electoral que han obligado a modificar la naturaleza de los partidos políticos y el desarrollo de campañas electorales. Para ello traza la genealogía de la comunicación política explicando su naturaleza y sus principales paradigmas y su caja de herramientas retóricas hecha de discursos y rituales de relatos y encuadres de himnos y eslóganes de acontecimientos y performances.

Populist Radical Left Parties in Western Europe Marco Damiani, 2020-01-30

This book provides a comparative analysis and a systemic categorization of the Populist Radical Left Parties (PRLPs) in Western Europe. Institutional and socio-economic aspects have transformed the political culture of many modern democracies leading to the creation of radical left-wing parties who by combining a strongly populist political offer with the historical demands of the traditional left-wing are capable of electoral success. This book analyzes a range of different Populist Radical Left Parties (PRLPs) in Western Europe through in-depth case studies. The author uses statutes, internal documents, programs, election results, membership data and international political literature combined with interviews with executives and national secretaries to describe and interpret the main features of PRLPs, their paths of formation and political transformation. This volume will appeal to scholars and students of political science and political sociology, media studies and anyone interested in trying to better understand European populism and the distinctions among its different forms.

a new design of genetic algorithm for bin packing ieeexplore - Sep 04 2022

web dec 12 2003 abstract in this paper a new design of genetic algorithm ga is proposed for solving the one dimensional bin packing problem which is to pack a given set of items into the minimum number of bins ga should be designed in such a way that offspring inherit important factors of parents

practical applications of bin packing using genetic algorithm - Dec 07 2022

web mar 16 2018 i am doing research on genetic algorithms for solving the bin packing problem i can understand the process now but since the final output is a set of solutions for one list of items i cannot figure out why do we need a set of solutions for one list of items when one solution should be enough
