Clinical Neuropsychology Study Guide and Board Review Kirk J. Stucky, Michael W. Kirkwood, Jacobus Donders, 2014 The Clinical Neuropsychology Study Guide and Board Review provides an easy to study volume with sample questions and recommended readings that are specifically designed to help individuals prepare for the ABCN written examination In addition this book can also be used as a teaching tool for graduate students and trainees at various levels The book is divided into three sections Section 1 Foundations of Clinical Neuropsychology Section II Fundamentals of Assessment and Section III Disorders and Conditions The format is geared toward exam preparation and is much less dense than a typical textbook Materials are provided in a concise outlined manner with liberal use of bullets boxes and illustrations tables that allow readers to easily review and integrate information into their already established knowledge base To augment the study guide a recommended readings list at the end of each chapter provides references to more comprehensive materials considered important or seminal in each topic area

Assessment of Aphasia Otfried Spreen, Anthony H. Risser, 2003 For the past twenty years Spreen and Risser have episodically reviewed the state of aphasia assessment in contemporary clinical practice This book represents their most thorough effort Taking a flexible assessment approach the authors present dozens of tests for traditional use in the diagnosis of aphasia and in functional communication childhood language development bilingual testing pragmatic aspects of language in everyday life and communication problems in individuals with head injury or with lesions of the right hemisphere The book is a thorough and practical resource for speech and language pathologists neuropsychologists and their students and trainees

Methods in Neuropsychology M. A. Jeeves, G. Baumgartner, 2013-10-22 Efforts to relate neuroscience and anatomy with ethology and psychology have involved an ever widening group of scientists from diverse backgrounds and it has become increasingly evident that interaction is harder to arrange This book is offered as a first attempt to address some of these interdisciplinary problems First it aims to provide a critical evaluation of some of the principal methods used by neuropsychologists in research and assessment Second it provides short evaluations of the methods which they use to shed further light on brain dysfunction In this way it is hoped that it offers a further insight into this multidisciplinary field

Aphasiology Robert T. Wertz, Joseph R. Duffy, 2001-03-15 Frederic L. Darley was the consummate clinical scientist One cannot peruse the literature on neurogenic communication disorders without constantly encountering his name his work his influence His work was monumental The contributors of the seven papers in this issue of *Aphasiology* have long and impressive track records as researchers and clinicians Their papers are important because not only do they reflect how Darley's work has influenced diagnostic and patient management decisions but in some cases the contributors take issue with and/or expand on his work This ability to question existing evidence was a trait that Fred Darley instilled in his students Equally important is that each paper tells us something about him as a person as a mentor who shaped careers and about the love and respect his students and colleagues had for him
