Attacking Chess The French Everyman Chess Series:

French Defense Hannes Langrock, 2018-06-28 A Complete Black Repertoire against 1 e4 Built around the Super solid Rubinstein The solid Rubinstein Variation of the French Defense despite its having been played by world champions and elite grandmasters it has never been subjected to detailed study The author German International Master Hannes Langrock has produced a book with complete coverage of this line along with solid recommendations for Black should White deviate on the second or third move The first edition was widely acclaimed and the second edition has been revised and expanded I never realized that Black could take such active measures in the Rubinstein Variation without significant drawbacks This book is an eye opener and even top grandmasters might find that they have underestimated Black s resources in important positions The average tournament and online player will appreciate Langrock s straightforward no nonsense style He keeps the complexity of the analysis within bounds and highlights relevant details without drifting into obscure page long analytical byways General themes are clearly presented within the context of illustrative games The result is a book that covers a broad swath of material in a modest number of pages I m sure that you will be well rewarded for its study and come out with a useful new weapon in your chess arsenal International Master John Watson in his Foreword to the first edition **Attacking Chess - The French** Simon Williams, 2011 Simon Williams presents an opening repertoire for Black with the French Defence He combines his unique attacking ideas with the traditionally solid French structure to produce a powerful armoury of weapons for Black **Chess Life** ,2007 Forthcoming Books Rose Arny, 2001 *My First Chess Opening Repertoire for Black* Vincent Moret, 2017-09-28 Every chess player needs to decide which openings he or she is going to play But where do you start The risk of drowning in the turbulent sea of chess opening theory is only too real for beginning amateurs Often your goals and ambitions will be misguided If you are trying to win in 20 moves copy what s in fashion among top GM s or memorize variations you are wasting your time Most likely you will never get to play your preparation and end up aimlessly switching from one opening to the other After the success of his volume for White experienced French chess trainer Vincent Moret now provides a complete ready to go chess opening repertoire for Black It consists of a sound set of lines that do not outdate rapidly do not require memorization and are easy to digest for beginners and post beginners To show the typical plans and the underlying ideas in the various lines of his repertoire Moret not only selected games of Grandmasters He also uses games of young improving players to highlight the errors they tend to make Subject Guide to Books in Print ,2001 Wordsworth Dictionary of Phrase and Fable Ebenezer Cobham Brewer, 2001 This work explains the origins of the familiar and the unfamiliar in everyday speech and literature including the colloquial and the proverbial It embraces archaeology history religion the arts science mythology and characters from fiction Attacking with L.e4 John Emms, 2001 **Play the French** John Watson, 2003 This is a fully revised edition of John Watson s classic Play the French providing Black with a complete repertoire in the French Defence one of the most strategically and dynamically complex opening systems *The*
