This autobiographic material from Jesse Saperstein is a contemporary masterpiece by its own right. Although it is non-fiction, this narrative is very entertaining reading. It has everything a good novel must have without being one: a powerful human story, drama, laughter, a lot of strangely funny passages, and real-life happenings. The author really nails a wonderful complete piece. Moreover, it is surprisingly funny and easy to follow, a perfect read for new college students coming to increasingly diverse campuses or for class discussions. I agree with Temple Grandin when she said the author's writing is brilliant and creative.

Despite the title of the book, *Atypical*, there is no relation with the popular Rashid's Netflix show with the same name. Both pieces are breathtaking; Saperstein's style is both honest and passionate, and the readers will find themselves easily captivated by his smart fluent writing, which will keep them connected with his narrative. The most well-known signs of Asperger's syndrome, such as social clumsiness, lack of clarity within non-verbal communications, apparent emotional inaccessibility, rituals, routine, and limited range of interest, are presented within an honest and clear framework. Saperstein presents an image far different from picturesque pop culture stereotypes like Hollywood's bizarre math
