Children is a groundbreaking collection of chapters by an international group of analytic authors. The book addresses the general lack of psychoanalytic writing on working with erotic feelings in the consulting room when treating children and adolescents. This lack is doubly odd given Freud's emphasis on childhood sexuality as well as the intensities of the adolescent body/mind. This book takes the view that the subtle interchange of feelings, dreams, narratives and images that arise when erotic feelings are in the fore is better conceptualized as an erotic field than with the binary of transference/countertransference. In contemporary psychoanalysis, the idea that transference love offers the possibility of knowing the other in the deepest possible way is supplanting an attitude of suspicion. Clinical work with small children to late adolescents will be offered, including gay and gender fluid adolescents. This book makes a decisive contribution to assist clinicians to brave the erotic field with children and adolescents. Writing Young Adult Fiction For Dummies Deborah

Harrington, 2014-01-27 Book four of *Murders by Design*. Interior designer Deva Dunne finds more than fabulous furnishings on her trip to the design mall; she and her client come upon the body of one of Deva's favorite shop owners swinging from the atrium railing. It looks like suicide, but Deva feels sure that the purveyor of Florida's finest antiques would never leap to his death from a tacky blue stool. Deva's boyfriend, studly and stoic police lieutenant Victor Rossi, looks into it, but there's not much to go on. He's focusing on their future these days, and he wishes Deva would steer clear of danger. But everyone around Deva seems to be keeping secrets, and she's getting some strange reactions to the designs she's doing for a big charity event. When she experiences a mysterious attack, she knows she's at the center of something huge, and if she doesn't outwit this killer fast, her only future will be six feet under. 73,000 words. **Mistress by Magick** Laura Navarre, 2014-01-20 Tudor

England 1588 Lady Jayne Boleyn lives in disgraced exile, far away from the scandal that destroyed her reputation. She would do anything to return, even seduce a daredevil captain and spy on enemy forces with only her barely controlled Fae powers to protect her. The Spanish don't resent pirate Lord Calyx's leading role in their impending attack on England, but his rivals would kill him outright should they ever learn he's not only half-Spanish, he's also half-human. On the lookout for spies who might unmask him, Calyx's suspicions settle on Jayne, but so do his lusts. Duty demands Jayne and Calyx be enemies, but fate has made them loyal lovers. Together they may thwart the combined malice that threatens to alter the fate of Europe. But as a
