Desarrollo

I- Tecnología y efectividad organizacional

En la etapa de entrada, es la tecnología (la cual comprende habilidades, procedimientos, técnicas y competencias) lo que permite a cada función organizacional manejar las relaciones con las partes interesadas externas para que la organización pueda administrar eficazmente su ambiente específico. Por ejemplo, la función de recursos humanos cuenta con técnicas particulares, como procedimientos para entrevistas y pruebas psicológicas, que utiliza para reclutar y seleccionar a empleados calificados. La función de administración de materiales ha desarrollado competencias para tratar con los proveedores de los insumos, mismas que le permiten negociar términos favorables en los contratos y obtener componentes de alta calidad a bajo costo.

En la etapa de conversión, la tecnología (que en este caso incluye una combinación de máquinas, técnicas y procedimientos laborales) transforma los insumos en productos. Contar con la mejor tecnología permite a las organizaciones añadirle el mayor valor a sus insumos con el menor costo de recursos organizacionales, por lo que éstas a menudo tratan de mejorar la eficiencia de sus procesos de conversión.

En la etapa de salida (resultados), la tecnología le permite a una organización poner de manera eficaz bienes terminados y servicios a disposición de las partes interesadas. Para ser eficaz, una organización debe poseer competencias que le permitan probar la calidad del producto terminado, venderlo y comercializarlo, así como administrar un servicio posventa a los clientes.

El libro presenta más de 160 actividades artísticas para realizar con niños de 0 a 6 años. Son actividades fáciles creativas y de probada eficacia. Todas incluyen propuestas de manipulación pintura dibujo etc. así como sugerencias para dialogar con los niños sobre diferentes cuestiones. Son ideales para su uso en todos los ámbitos de la educación infantil: centros de preescolar guarderías y aulas de acogida también suponen una divertida propuesta para trabajar en casa con padres madres o cuidadores dando a las experiencias de ocio y tiempo libre un fuerte contenido educativo. Las actividades están agrupadas por temas atractivos para niños de edades tempranas y se pueden utilizar como un programa completo a lo largo del curso escolar o como fuente de recursos e ideas.

Las aulas de 0 a 3 años María Cristina Lahora Pérez, 2013-07-04 El objetivo fundamental que se persigue en la etapa educativa que comprende de los 0 a los 3 años del niño es acompañarle en sus primeros pasos hacia su autonomía moral en especial en lo referido a la adquisición de buenos hábitos de sueño alimentación e higiene. Este libro nos ayuda a conocer mejor el proceso de maduración física cognitiva y psicológica de los niños en esta etapa y se ofrecen pautas y actividades a los educadores de las escuelas infantiles para trabajar con ellos en este sentido. Por último se presenta una propuesta clara y bien fundamentada sobre cómo organizar un centro de educación infantil sus espacios comunes las aulas específicas para cada edad sus horarios el periodo de adaptación y la colaboración de las familias con el centro escolar en la educación de los niños pequeños.

Extensión Del Centro Infantil a la Comunidad, Educación alternativa y la formación de sus docentes. Una propuesta curricular para los programas de preparación de docentes: el caso de Puerto Rico Andrea Barrientos Soto, 2020-11-18 El abandono escolar es una dura realidad. Existen jóvenes que han abandonado la escuela y otros a quienes la escuela los ha abandonado. El abandono escolar o educativo trae consigo un alto costo social y personal muchas veces dirigiendo las vidas de jóvenes hacia una vida adulta precaria con alta vulnerabilidad social y económica. En respuesta surge la Educación Alternativa y en particular las Escuelas de Segunda Oportunidad que proporcionan una educación creativa con base democrática para cultivar una Cultura de paz que atiende los rezagos académicos que puedan presentar los jóvenes. Promueve la autonomía y sobre todo atiende el aspecto socio educativo del joven. Las escuelas deberían contar con un profesorado con las herramientas conocimiento y creatividad apropiadas para esta modalidad de enseñanza. Sin embargo son pocas las universidades que ofrecen esta formación. El libro presenta un plan de estudios para los programas de preparación de docentes con el fin de formar a docentes especializados en la Educación Alternativa. En el contexto real de las escuelas alternativas en Puerto Rico el libro recoge las voces de docentes directores y patronos líderes educativos expertos en currículo y gestores de políticas públicas sobre la Educación Alternativa y el papel de sus docentes. El libro invita a docentes administradores profesores psicólogos y profesionales de la Educación y Salud a mirar hacia la preparación de docentes como la llave para crear experiencias de genuino valor para jóvenes en riesgo de exclusión social que ya han experimentado grandes decepciones en el sistema educativo tradicional. De esa forma las escuelas y universidades pueden aportar a la retención y graduación de jóvenes en sus segundos intentos de completar sus estudios.
