Girl Behind the Fence: Codependency Mozelle Martin, Ph.D., 2019-07-07 Per Mental Health America over 40 million Americans mostly women have actually been diagnosed or labeled as codependent In fact a study using the Beck Depression Inventory and the Codependency Assessment Tool revealed that 14.4 million 36% of these Americans were also undergoing simultaneous treatment for depression The study found that the more they answered yes to questions like those below the more impaired they were by their codependency and the more severe their depression The next factors measured in this study were that of self worth and authenticity It was found that the lower their self worth the more they alienated themselves the less self awareness they had and the more severe their depression was As a natural continuance the more severe the depression the less independent they were and therefore the more codependent and debilitating their symptoms were As you can see it s truly a vicious circle Codependent relationships can be between friends romantic partners or family members and often the relationship includes emotional verbal or physical abuse Friends and family members of a codependent person often recognize that something is wrong but will often not try to help because they would lose their benefits should the codependent person become healthy Like any mental or emotional health issue treatment requires time and effort and a strong but non enabling and non codependent support system including this book The bad news is that the severity of codependency increases when the symptoms go ignored The good news is that with the right help you can regain control of your life set and maintain health boundaries seek out your authentic and independent self reach goals practice your passions reclaim your career and much more That is why this book exists

Codependency David Lawson PhD, Are you having trouble fostering healthy relationships Are you stressed feeling drained and exhausted from giving too much in your relationships Do you know who you are What you need What you like Or do you feel that you need to be validated and approved by a partner or any other person to feel good about yourself If your life has been overshadowed by an addiction trauma or toxic shame you are probably fighting with an invisible enemy an enemy that is particularly difficult to vanquish codependency Codependency is notoriously difficult to combat because there is no precise definition of the disorder The signs and symptoms also differ for everyone It is often mistaken for narcissism or other personality disorders that do not reflect the true situation Experts say that it is a pattern of behavior in which a person finds themselves dependent on

someone else's approval for their self esteem and identity People who suffer from this disorder tend to mask what they really feel At other times they are not even aware of what they are doing This only serves to cloud the overall picture by delaying positive interventions which sometimes will never come I RECOMMEND THAT YOU READ THIS BOOK IF You are not aware of how you truly feel You have difficulty identifying your feelings You have difficulty expressing your feelings You tend to minimize modify or even deny the reality of what you feel You tend to worry and or fear how others may respond to how you feel You give power over your feelings to others Does this sound familiar to you DOES YOUR PARTNER OFTEN Focus his or her attention on pleasing you Focus his or her attention on protecting you even when it is not necessary Focus his or her attention on solving your problems Focus his or her attention on relieving your pain Focus his or her attention on manipulating you forcing you to do things his or her way There are numerous other situations that are listed in this book Knowing the right information allows you to limit any damage by avoiding unnecessary suffering Everyone seems to know a couple relationship in which one partner seems to be more involved than the other and tries to get their love and care by satisfying their needs They try to control their partner's behavior through such subtle manipulation techniques and the partner will often not even notice They make endless and complicated dances around problems but what they never do is establish a sincere and healthy connection WHAT YOU NEED NOW Listen to those who understand this problem and have experienced the dynamics just listed Inquire read watch videos and access people who have the skills to alleviate the destructive damage that unstable parents can create This manual offers support not only to those who are codependent but also gives useful advice to partners family and friends on how to reduce the discomfort and suffering of their loved one with sections written especially for them This complete approach makes this manual a milestone of its kind Act now before it's too late If a codependent denies his destructive behavior he can pass it on to his children If the child does not realise the behavioural model of the parents and its negative impact it will generate the same patterns as an adult An endless cycle can be established Commit to breaking this cycle and regain control of your life Scroll up and click Buy Now button at the top of this page
