Charles Russo, 2019-11-01 In the spring of 1959 eighteen year old Bruce Lee returned to San Francisco the city of his birth

Although the martial arts were widely unknown in America Bruce encountered a robust fight culture in the Bay Area populated with talented and trailblazing practitioners such as Lau Bun Chinatown's aging kung fu patriarch Wally Jay the innovative Hawaiian jujitsu master and James Lee the Oakland street fighter Regarded by some as a brash loudmouth and by others as a dynamic visionary Bruce spent his first few years back in America advocating for a modern approach to the martial arts and showing little regard for the damaged egos left in his wake The year of 1964 would be an eventful one for Bruce in which he would broadcast his dissenting worldview before the first great international martial arts gathering and then defend it by facing down Wong Jack Man Chinatown's young kung fu ace in a legendary behind closed doors showdown These events were a catalyst to the dawn of martial arts in America and a prelude to an icon Based on over one hundred original interviews Striking Distance chronicles Bruce Lee's formative days amid the heated martial arts proving ground that thrived on San Francisco Bay in the early 1960s

Faith across the Multiverse Andy Walsh, 2022-10-04 Science is often presented as a set of propositions to affirm On those terms the existence of God becomes yet another such proposition and all science can offer is a yes or a no Andy Walsh thinks science offers more By enriching our language with new concepts science can help us know God rather than merely know of him This is the pattern established in the Bible the psalmists the prophets the epistle writers they all use language about nature to help us understand God Even Jesus relied on metaphors from the natural world when he wanted to explain the kingdom of God Faith across the Multiverse explores concepts from contemporary science to illuminate scripture and reveal more about the God who has unfurled the multiverse Sections of the book cover metaphors and parables from mathematics physics biology and computer science
