

An Introduction to Criminological Theory

Third edition

ROGER HOPKINS BURKE

An Introduction To Criminological Theory

Scott A. Lukas

An Introduction To Criminological Theory:

An Introduction to Criminological Theory Roger Hopkins Burke, 2025-01-28 This book provides a comprehensive and up to date introduction to criminological theory for students taking courses in criminology at both undergraduate and postgraduate level Building on previous editions and the previous companion text this book presents the latest research and theoretical developments in a socio political context All major theoretical perspectives are considered including classical criminology biological and psychological positivism labelling theories feminist criminology critical criminology and left realism situation action theories desistance theories social control theories the risk society postmodern condition and terrorism The new edition has been updated and revised over seven parts to include full chapters on key topics such as Bourdieu and criminology narrative criminology cultural victimology southern theory and criminology green and species criminology critical race theory convict and abolitionist and convict criminologies and ultra realist criminology These key issues are discussed in the context of debates about the fragmentation of modernity and the postmodern condition the rise of political populism risk surveillance and social control conspiracy theories post truth society and speculation about living in post COVID 19 society and the future of neoliberalism Supplemented with chapter summaries critical thinking questions policy implications a full glossary of terms and theories and a timeline of criminological theory this book will appeal to undergraduate and postgraduate students of criminology sociology and politics and is essential reading for advanced students of criminology looking for a way to engage with contemporary themes and concepts in theory

An Introduction to Criminological Theory Marilyn McShane, 2013-09-13 First Published in 1997 This is a book about the different ways in which crime and criminal behaviour has been explained in modern times It will be seen that there are different explanations or theories which have been proposed at various times during the past 200 years by among others legal philosophers biologists psychologists sociologists and political scientists

An Introduction to Criminological Theory, Penology and Crime Prevention Ishmael Mugari, 2020-08 This book combines three key issues in the field of criminology criminological theory penology and crime prevention Thus the book addresses three fundamental criminological aspects namely explaining the causes of criminal deviant behaviour explaining the process of dealing with deviants criminals and articulating ways for preventing criminal activities This is an essential book for researchers and students undertaking undergraduate and post graduate programmes in criminology and criminal justice The book is also essential for security and correctional practitioners such as police officers correction officers probation officers and private security players as well as criminal crime control policy makers As a lecturer in the field of criminology for some time I discovered the challenges that most students face in comprehending various divergent aspects of criminological theory as well as other issues in the areas of penology and crime prevention However this essential book logically presents the criminological theories penology and crime prevention aspects in simple language and anyone who reads it will find it easy to grasp all the various aspects it covers To

assist with comprehension summaries of main issues and discussion questions are placed at the end of each chapter The book is comprised of eight chapters Chapter one the introductory chapter explains key concepts such as criminology crime deviance criminal justice and crime statistics The chapter also gives a brief history of criminology and outlines the role of the criminologist among other issues Chapter two to chapter six cover criminological theories in classes as follows chapter two covers the classical and neoclassical school of criminology chapter three covers the positivist school of criminology chapter four covers socio structural theories chapter five covers social process theories and chapter six covers critical theories Chapter seven covers white collar criminology and given that most of the pioneer criminologists mainly focused on street crime the chapter looks at white collar crime which is even more harmful Chapter eight focuses on penology which is the study of punishment and the treatment of offenders It covers areas such as theories of punishment forms of punishment the death penalty restorative justice and recidivism Lastly chapter nine focuses on crime control and prevention The chapter starts by looking at two models of the criminal justice process the crime control model and the due process model The bulk of the chapter then looks at crime prevention which entails any action designed to reduce the actual level of crime and or the perceived fear of crime Among others the chapter looks at crime prevention through environmental design situational crime prevention crime prevention through social development as well as various policing strategies for crime prevention

Criminological Theory Roger Hopkins Burke, 2005-04-01 This book provides a comprehensive and up to date introduction to criminological theory for students taking courses in criminology at both undergraduate and postgraduate level The text is divided into four parts the first three of which address ideal type models of criminal behaviour the rational actor predestined actor and victimised actor models Within these the various criminological theories are located chronologically in the context of one of these different traditions and the strengths and weaknesses of each theory and model are clearly identified The fourth part of the book looks more closely at more recent attempts to integrate theoretical elements from both within and across models of criminal behaviour

An Introduction to Criminological Theory and the Problem of Causation Jason Warr, 2017-01-24 This text offers a novel contribution to the literature on core criminological theory by introducing the complex issues relating to the structuring and analysing of causation This text traces the paradigm shift or drift that has occurred in the history of criminology and shows how the problem of causation has been a leading factor in these theoretical developments This short book is the first of its kind and is an introductory text designed to introduce both seasoned criminologists as well as students of criminology to the interesting intersections between the fields of criminology and the philosophy of the social sciences The problem of causation is notoriously difficult and has plagued philosophers and scientists for centuries Warr highlights the importance of grappling with this problem and demonstrates how it can lead to unsuccessful theorising and can prevent students from fully appreciating the development of thinking in criminology This accessible account will prove to be a must read for scholars of criminal justice penology and philosophy of social science

Criminal Justice Theory Roger Hopkins Burke,2013-03-01 Criminal Justice Theory examines the theoretical foundations of criminal justice in the modern era whilst also considering legal philosophy and ethics explaining criminal behaviour and discussing policing the court process and penology in the context of contemporary socio economic debates Throughout the book a realist theoretical thread acts as a guide interlinking concepts of social progress conflict and cerebral models of criminal justice whilst also recognizing our collusion in the creation of an increasingly pervasive culture of socio control which now characterizes contemporary society The complex theoretical issues tackled in this book are addressed in an accessible style making this a relevant and comprehensive introduction to criminal justice theory for students on a wide range of undergraduate criminal justice modules It is also a helpful guide for those commencing postgraduate studies in the disciplines of criminal justice criminology and law *Recent Developments in Criminological Theory* Scott A.

Lukas,2017-07-05 This volume contains recent and cutting edge articles from leading criminological theorists The book is organized into ten sections each representing the latest in the multi disciplinary orientations representing a cross section of contemporary criminological theory These sections include 1 Classical and Rational Choice 2 Biological and Biosocial 3 Psychological 4 Social Learning and Neutralization 5 Social Control 6 Social Ecology Sub cultural and Cultural 7 Anomie and Strain 8 Conflict and Radical 9 Feminist and Gender 10 Critical Criminologies Anarchist Postmodernist Peacemaking The articles were selected based on their contributions to advancing the field including ways in which the authors of each chapter understand the current theoretical tendencies of their respective approaches and how they envision the future of their theories Because of this the articles focus on theory rather than empirical research Of particular note is the tendency toward integration of different perspectives as described by editors Henry and Lukas in their original introduction to this volume

Criminological Theory in Context John Martyn Chamberlain,2015-01-19 This book provides a lively concise and definitive introduction to the study of the causes of crime Authoritative yet accessible it offers a guide to the historical development of criminology as an academic discipline and in doing so presents an overview of a range of different theories of crime including classical biological psychological and sociological approaches analyses the strengths and weaknesses of each theory discussed provides chapter overview boxes and key summary points helps you to take your studies further with self study tasks and suggestions for further reading In covering key theoretical positions and placing them in their historical context Criminological Theory in Context is perfect for students taking introductory courses in criminological theory

Criminological Theory Stephen G. Tibbetts,Alex R. Piquero,2021-12-30 Criminological Theory The Essentials Fourth Edition by Stephen G Tibbetts and Alex R Piquero is a brief yet comprehensive overview of the major concepts and perspectives of the key theories in the evolution of criminology Putting criminological theory in context the acclaimed authors examine policy implications brought about by theoretical perspectives to show students the practical application of theories to contemporary social problems The new edition has been thoroughly updated with the latest theoretical extensions

and empirical research with links made to specific theories and recent events **Encyclopedia of Criminological Theory**
Francis T. Cullen, Pamela Wilcox, 2010-09-23 Consistently excellent The level and coverage of the content make this an invaluable reference for students studying criminology or taking criminal psychology modules at degree level and beyond
Adam Tocock Reference Reviews In discussing a criminology topic lecturers and course textbooks often toss out names of theorists or make a sideways reference to a particular theory and move on as if assuming their student audience possesses the necessary background to appreciate and integrate the reference However university reference librarians can tell you this is often far from the case Students often approach them seeking a source to provide a quick overview of a particular theory or theorist with just the basics the who what where how and why if you will And reference librarians often find it difficult to guide these students to a quick one stop source In response SAGE Reference is publishing the two volume Encyclopedia of Criminological Theory available in both print and electronic formats This serves as a reference source for anyone interested in the roots of contemporary criminological theory Drawing together a team of international scholars it examines the global landscape of all the key theories and the theorists behind them presenting them in the context needed to understand their strengths and weaknesses In addition to interpretations of long established theories it also offers essays on cutting edge research as one might find in a handbook And like an unabridged dictionary it provides concise to the point definitions of key concepts ideas schools and figures Coverage will include contexts and concepts in criminological theory the social construction of crime policy implications of theory diversity and intercultural contexts conflict theory rational choice theories conservative criminology feminist theory

If you ally habit such a referred **An Introduction To Criminological Theory** books that will have enough money you worth, get the extremely best seller from us currently from several preferred authors.
