manage the stable of reporters who followed him doling out information steering coverage and squashing stories that interfered with his agenda It was a strategy that galvanized TR s public support but the lesson was lost on Woodrow Wilson who never accepted reporters into his inner circle Franklin Roosevelt transformed media relations forever holding more than a thousand presidential press conferences and harnessing the new power of radio at times bypassing the press altogether John F Kennedy excelled on television and charmed reporters to hide his personal life while Richard Nixon was the first to cast the press as a public enemy From the days of newsprint and pamphlets to the rise of Facebook and Twitter each president has harnessed the media whether intentional or not to imprint his own character on the office In this remarkable new history acclaimed scholar Harold Holzer examines the dual rise of the American presidency and the media that shaped it From Washington to Trump he chronicles the disputes and distrust between these core institutions that define the United States of America revealing that the essence of their confrontation is built into the fabric of the nation
