Moving Workers Claudia Bernardi, Viola Franziska Müller, Biljana Stojić, Vilhelm Vilhelmsson, 2023-10-04 This book explores how workers moved and were moved why they moved and how they were kept from moving Combining global labour history with mobility studies it investigates moving workers through the lens of coercion The contributions in this book are based on extensive archival research and span Europe and North America over the past 500 years They provide fresh historical perspectives on the various regimes of coercion mobility and immobility as constituent parts of the political economy of labour Moving Workers shows that all struggles relating to the mobility of workers or its restriction have the potential to reveal complex configurations of hierarchies dependencies and diverging conceptions of work and labour relations that continuously make and remake our world

Refashioning the Renaissance Paula Hohti, 2025-01-28 How did ordinary men and women dress in early modern Europe What fabrics and garments formed the essential elements of fashion for artisans and shopkeepers Did they rely on affordable alternatives to the silks jewellery and decorations favoured by the wealthy elite Or did those with modest means find innovative ways to express their fashion sense This book provides new perspectives on early modern clothing and fashion history by investigating the consumption and meaning of fashionable clothing and accessories among the popular classes Through a close examination of the materials craftsmanship and cultural significance of fashion items owned by and available to a broad group of consumers it challenges conventional assumptions that the everyday dress of ordinary families was limited to a narrow selection of garments made of coarse textiles often produced at home and resistant to change

Innovation and Creativity in Late Medieval and Early Modern European Cities Karel Davids, Bert De Munck, 2016-05-23 Late medieval and early modern cities are often depicted as cradles of artistic creativity and hotbeds of new material culture Cities in renaissance Italy and in seventeenth and eighteenth century northwestern Europe are the most obvious cases in point But how did this come about Why did cities rather than rural environments produce new artistic genres new products and new techniques How did pre industrial cities evolve into centres of innovation and creativity As the most urbanized regions of continental Europe in this period Italy and the Low Countries provide a rich source of case studies as the contributors to this volume demonstrate They set out to examine the relationship between institutional arrangements and regulatory mechanisms such as citizenship and guild rules and innovation and creativity in late medieval and early modern cities They analyze whether in what context and why regulation or deregulation influenced innovation and creativity and what the impact was of long term changes in the political and economic sphere

Networks in the Early History of Capitalism Stefania Montemezzo, 2024-10-31 Drawing on a detailed examination of Venetian commerce in the Middle Ages this book explores the business practices and structures that enabled merchants to compete in a challenging international market Contributing to the literature on the early history of capitalism this book demonstrates how Venetian merchants combined innovation with traditional methods to maintain their edge in a competitive

world providing valuable lessons on resilience and strategic planning in commerce Small and mid sized commercial companies operating across borders and geographies in the early Renaissance period faced numerous challenges including identifying profitable sectors and businesses developing effective business strategies dealing with peers and subordinates managing the flow of information and assessing risks and potential rewards The chapters explore a range of topics in this context including the roles of family based firms the strategic deployment of agents and the impact of state policies on private enterprise Readers are introduced to the ways Venetian merchants managed capital adapted to market demands and overcame obstacles like wars and resource shortages This book will be of significant interest to historians and social scientists researching economic history the history of trade the history of capitalism medieval and Renaissance history and historical network analysis *The Value of Work since the 18th Century* Massimo Asta, Pedro Ramos Pinto, 2023-07-27

Beginning in the 18th century a turning point in labour history as work encountered an industrialising modernity this book explores how different forms of work have been valued up to the present day Focusing on the cultural intellectual social and political implications of wages the chapters in this collection historicise the labour market conceiving it as complex system of social relations which evolve through time and differ according to space They show how the level of wages and other forms of remuneration reflect not only marginal productivity and scarcity but also the nature of work relations and wider political social and economic circumstances With examples ranging across several centuries and different parts of the globe it shows how wages are influenced by the specific organization and processes of work conflict and power social status and hierarchies between workers custom and identity family structure and professional ethics ideology politics and policy Combining quantitative and qualitative approaches *The Value of Work since the 18th Century* also addresses two interlinked questions how did theoretical interpretations and techniques of wage measurement emerge and evolve and to what extent does this matter in understanding the social and political history of work *The Dynamics of Big Business* Veronica Binda, 2013-06-26

Throughout the Twentieth Century big business has been a basic institution Large corporations have provided a fundamental contribution to the wealth of nations and at the same time have had a remarkable impact on the political and social systems within which they have operated It is difficult to understand the development of the most advanced economies if we do not consider the specific evolution of big business in every national case On the other hand it is not possible to explain the shape and behavior of big business without considering its development as part of the history of the country in which they operate The largest US German British and French firms were key actors in favoring their nations development and even at the end of the Twentieth Century made a very important contribution to their growth In many countries a stable core of large corporations developed only relatively lately or did not develop at all and under these circumstances big business was not able to significantly participate in the economic growth of such countries Scholars who dealt with the economic history of Italy and Spain are generally unanimous in tagging these nations as industrial late comers ineffective in promoting big

autochthonous private and State owned firms dominated by family companies and characterized by a strong competitive advantage on the part of small and medium sized enterprises At the same time Spanish and Italian business and economic historians have tended to say little about the role and features of big business This book thus fills a significant gap in the work on the development of Southern European capitalism and its large corporations by analyzing the Italian and Spanish cases and comparing them with each other and with what has occurred in the United States and in the largest European nations Examining both the macro dynamics national but also supra national and the micro level utilizing samples of big corporations and going deeply into some company cases this volume identifies some important protagonists of the Italian and Spanish economies such as the State families and foreign investors and investigates a wider panorama which includes the political economic and social relationships of the corporations providing insights into the form of capitalism that exists in these countries

Financing in Europe Marcella Lorenzini, Cinzia Lorandini, D'Maris Coffman, 2018-02-19 This book explores the evolution of credit and financing in Europe from the Middle Ages through to Modern Times It engages with the distinct political economic and institutional frameworks of the examined areas England Italy France Germany Spain the Netherlands and Turkey and discusses how these affected the credit market It covers a wide range of different types of lending and borrowing instruments the destination of capital the way it was raised and the impact it had on local or national economies in a very long run Presented in two parts part one of the book focuses on credit markets in the preindustrial age in particular the period before the advent of modern joint stock banks Part two examines the evolution of credit at the time of the emergence of modern banks This volume will be of interest to academics and researchers in the field of finance who are interested in the historic evolution of credit and the credit market

Between Cure and Control Benedetta Chizzolini, 2025-10-06 Since antiquity doctors have always been required to be vigilant i e extremely attentive particularly when it comes to any symptoms exhibited and or complained of by the patient As outlined in the Hippocratic Oath since antiquity a doctor s primary mission is to ensure the patient s well being and recovery irrespective of their social status However loyalty to the patient was explicitly subordinated whenever the patient performed an action deemed suspicious or even detrimental to society s best interests The goal of this book is therefore to delve deeper into the multivalent role and attitude of physicians and surgeons as experts in how to interpret symptoms and how this in turn influenced their relationship with their patients especially when the latter were considered to be dangerous individuals This analysis does not seek to further explore Foucault s concept of the disciplinary nature of medicine but rather uses it as a starting point for analyzing the complex and so to speak ambiguous nature of the doctor patient relationship in the early modern period one which oscillated between cooperation and conflict To deepen these aspects this analysis will consider the role and tasks of a figure often neglected by historiography the galley doctor

The Development of Agricultural Science in Northern Italy in the Late Eighteenth and Early Nineteenth Century Martino Lorenzo Fagnani, 2023-04-29 The late eighteenth century and

subsequent Napoleonic Era witnessed a turning point in the establishment of agricultural science as a well defined discipline in northern Italy In this book Martino Lorenzo Fagnani traces these developments by reviewing the correspondence of naturalists and agriculturists as well as the research plans of universities academies societies institutes and governments He explores the establishment of a broad knowledge network encompassing all of Europe while also investigating the reasons behind the exchange of seeds the establishment of spaces for experimentation such as scientific gardens and experimental fields and the organization of specialized journals and monographs This work represents an important contribution to the historiography of Italian agricultural science filling a significant gap in our knowledge of related developments
