Mexico and the United States on how governments can develop a digital government strategy for creating public value how to finance digital innovation in the public sector how to building successful collaboration networks and foster citizen engagement and how to correctly implement open government projects and open data It will be of interest to researchers practitioners students and public sector IT professionals that work in the design and implementation of technology based projects and programs OECD Digital Government Studies Digital Government Review of Latin America and the Caribbean Building Inclusive and Responsive Public Services OECD,CAF Development Bank of Latin America,2023-09-08
