Agnosticism Agnosticism:

Atheism and Agnosticism Peter A. Huff, 2021-09-01 An overview essay and approximately 50 alphabetically arranged reference entries explore the background and significance of atheism and agnosticism in modern society This is the age of atheism and agnosticism The number of people living without religious belief and practice is quickly and dramatically rising Some experts call nonreligion after Christianity and Islam the third largest religion in the world today Understanding the origins history variations and impact of atheism and agnosticism is crucial to getting a grasp of the meaning of the present and gaining a glimpse of the future Exploring some of the most extraordinary people events and ideas of all time this book provides a fair comprehensive and engaging survey of all aspects of contemporary atheism and agnosticism An overview essay discusses the background and social and political contexts of unbelief while a timeline highlights key events Some 50 alphabetically arranged reference entries follow with each providing fundamental objective information about particular topics along with cross references and suggestions for further reading The volume closes with an annotated bibliography of the most important resources on atheism and agnosticism

Agnosticism: A Very Short Introduction Robin Le Poidevin, 2010-10-28 In this Very Short Introduction Robin Le Poidevin sets the philosophical case for agnosticism and explores it as a historical and cultural phenomenon He challenges the common wisdom about agnosticism among both believers and atheists and invites the reader to rethink their own position on the issues This stimulating and provocative guide takes issue on many points with the assertions of prominent atheists such as Richard Dawkins

The Attitude of Agnosticism Avery Archer, 2024-03-13 We often describe ourselves as agnostic on a wide range of topics such as does God exist is String Theory true or will the President win re election But what precisely does it mean to be agnostic This monograph employs the tools and techniques of analytic philosophy to offer a broad account of what it means to be agnostic in both theological and non theological contexts and offers a critical discussion of the major descriptive accounts of agnosticism in the contemporary analytic philosophical literature Unlike most other volumes on the subject which approach the question from a theological point of view this is the first book length discussion of agnosticism from a purely philosophical as opposed to theological point of view It serves as a natural starting point for students and specialists in philosophy and anyone who is interested in the topic of agnosticism through the lens of analytic philosophy

The Origins of Agnosticism Bernard Lightman, 2019-12-01 Originally published in 1987 The Origins of Agnosticism provides a reinterpretation of agnosticism and its relationship to science Professor Lightman examines the epistemological basis of agnostics learned ignorance studying their core claim that God is unknowable To address this question he reconstructs the theory of knowledge posited by Thomas Henry Huxley and his network of agnostics In doing so Lightman argues that agnosticism was constructed on an epistemological foundation laid by Christian thought In addition to undermining the continuity in the intellectual history of religious thought Lightman exposes the religious origins of agnosticism

Agnosticism Robert Flint,1903 Agnosticism Robin Le Poidevin,2010-10-28 What is agnosticism Is it just the don't know position on God or is there more to it than this Is it a belief or merely the absence of belief Who were the first to call themselves agnostics These are just some of the questions that Robin Le Poidevin considers in this Very Short Introduction He sets the philosophical case for agnosticism and explores it as a historical and cultural phenomenon What emerges is a much more sophisticated and much more interesting attitude than a simple failure to either commit to or reject religious belief Le Poidevin challenges some preconceptions and assumptions among both believers and non-atheists and invites the reader to rethink their own position on the issues ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable *Agnosticism, Atheism, Monism* Helena Petrovna Blavatsky,2018-02-07 Agnosticism is the modern variation on the ancient theme of the Greek philosopher All I know is that I know nothing Agnosticism is lack of reason nescience rather than ignorance Having found gnosis we cannot turn our backs on it and become agnostics says a Master of Wisdom The strong Agnostic assumes the negative position of knowing nothing but phenomena and refuses to believe in anything else The weak Agnostic may be ready to entertain new ideas but the light of Truth will always blind the religious bigot With the exception of psychism every other ism is a shade of materialism a science without a soul Ancient pagans held far deeper views on the First Cause and its emanations than modern philosophers whether Agnostics Materialists or Christians Agnostics have to choose between the Secret Doctrine of the East and the materialistic Darwinian and Biblical Doctrines of the West Agnosticism Positivism and Materialism are the worst enemies of Theosophy and Mysticism Much of current agnostic speculation on the existence of the First Cause is little better than veiled Materialism Between Agnostics and Catholics the age revels at a debauch of phenomena Brutal but frank Materialism is more honest than Janus faced agnosticism in our days Monism is no better than a mask concealing the void of final annihilation even of consciousness The Occultist would be guilty of treason were he to demolish the old gods before he could replace them with the eternal verities that they represent Atheists and Agnostics are thinly attracted to godless Buddhism or to our highly philosophical and logical agnosticism The moral standard of the Theosophists is TRUTH and this covers all No sincere seeker of Truth can ever be found among the blind believers in the Divine Word Our doctrine knows no compromises It either affirms or denies for it never teaches but that which it knows to be Truth *Agnosticism* Francis Fallon,Gavin Hyman,2020-11-04 In a time marked by prominent public clashes between theists and atheists much less attention has been given to the question of agnosticism whether in public debate or in academic literature This is all the more surprising given that so many in Western society feel unable to identify unequivocally with either theism or atheism This book brings together some leading contemporary philosophers from both the analytic and continental traditions to give a sustained and in depth

treatment of the question of agnosticism Approaching the question from a variety of stances and employing different methodologies the contributors explore the various possible meanings of agnosticism today Several of them develop what they describe as a New Agnosticism where the relationship with theism or forms of religious belief is not as mutually exclusive as has often been assumed Others look for signs of agnosticism in places where it is not usually thought to be found such as in forms of continental philosophy and even in theology itself They also raise interesting methodological questions at the intersection of analytic and continental philosophy These are stimulating and innovative essays working with the most recent developments in philosophy and religious thought They open up new avenues of thought that will be of interest to philosophers theologians and other thoughtful readers whether theist atheist or agnostic **Agnosticism** Robert Flint, 1903

Agnosticism Francis Fallon, Gavin Hyman, 2020 Agnosticism With Respect to God brings together leading philosophers considering the question of agnosticism an under explored area in philosophy and religious thought from both analytic and continental perspectives The book explores the various meanings of agnosticism in the twenty first century
