What you need to know about an airline - an aviation business handbook Robin Andrae,Arne Semken ,2021-04-21 The intention of the book is grounded on the unbroken enthusiasm for airlines and the entire travel and transportation industry as well as our interest in writing a compact handbook with basic knowledge about airlines from the perspective of two consultants Especially at the beginning of our career in the consulting industry we realized that this basic knowledge about airlines is hidden in countless textbooks websites and experiences of experts and that a compact handbook would certainly be beneficial From this thought the idea was born to provide graduates people interested in airlines airline newcomers and airline experts a book which makes the entry into the airline industry more enjoyable and easier We hope that our book will give you interesting insights into this exciting industry and that it will inspire and stimulate you especially with the organizational and theoretical models which undoubtedly originate from our core competence as consultants We hope you enjoy reading this book and wish you many valuable findings Your Robin Andrae and Arne Semken

Why Planes

Crash Case Files: 2002 Sylvia Wrigley, The second book in the Why Planes Crash series covers incidents and accidents in 2002 including two in flight suicides the Sknyliv airshow disaster how to write off a Saab 2000 an aircraft collision over the runway a dramatic river landing Air China 129 s flight into a Korean mountain and finally an in depth view of the berlingen mid air collision Accidents are invariably a combination of factors and pilot decisions and in actions can be the result of a culmination of those factors A strong investigation will not only consider the cause but the contributing factors those actions or inactions which could have saved the day but didn t The objective in accident investigations around the world is not to cast blame but to understand every aspect so that we can stop it happening again Unravelling the mystery is the most important step
