Lazy Couponer Jamie Chase,2011-09-13 Have you ever received a standing ovation at the cash register I have Jamie Chase If you ve ever felt overwhelmed by the world of coupons and guilty that you can t seem to nail the system to save money kick back with Jamie Chase couponing teacher and savvy shopper whom Brian Williams of NBC s Nightly News dubbed the Master The system is simple there s no chasing all over town on a single shopping trip no stockpiling of items you don t need no weekly tracking of item prices driving you to buy what you don t need simply because there s a sale Chase instructs readers on where to find coupons how to use them where to get the most bang for your buck and how to start thinking like a couponer every time you make a purchase Sound too easy With a little practice you ll see the savings rolling in while you live your life stress free and thousands of dollars per year richer *The Rating Agencies and Their Credit Ratings* Herwig Langohr,Patricia Langohr,2010-04-01 Credit rating agencies play a critical role in capital markets guiding the asset allocation of institutional investors as private capital moves freely around the world in search of the best trade off between risk and return However they have also been strongly criticised for failing to spot the Asian crisis in the early 1990s the Enron WorldCom and Parmalat collapses in the early 2000s and finally for their ratings of subprime related structured finance instruments and their role in the current financial crisis This book is a guide to ratings the ratings industry and the mechanics and economics of obtaining a rating It sheds light on the role that the agencies play in the international financial markets It avoids the sensationalist approach often associated with studies of rating scandals and the financial crisis and instead provides an objective and critical analysis of the business of ratings The book will be of practical use to any individual who has to deal with ratings and the ratings industry in their day to day job Reviews Rating agencies fulfil an important role in the capital markets but given their power they are frequently the object of criticism Some of it is justified but most of it portrays a lack of understanding of their business In their book *The Rating Agencies and their Credit Ratings* Herwig and Patricia Langohr provide an excellent economic background to the role of rating agencies and also a thorough understanding of their business and the problems they face I recommend this book to all those who have an interest in this somewhat arcane but extremely important area Robin Monro Davies Former CEO Fitch Ratings At a time of unprecedented public and political scrutiny of the effectiveness and indeed the basic business model of the Credit Rating industry and heightened concerns regarding the transparency and accountability of the leading agencies this book provides a commendably comprehensive overview and should provide invaluable assistance in the ongoing debate Rupert Atkinson Managing Director Head of Credit Advisory Group Morgan Stanley and member of the SIFMA Rating Agency Task Force The Langohrs have provided useful information in a field where one frequently finds only opinions or misconceptions They supply a firm base from which to understand changes now underway A well read copy of this monograph should be close to the desk of every investor issuer and financial regulator legislator or commentator John Grout Policy and Technical Director The Association of
