The Umpire's List of Lists Carl Childress, 2013-01-13 There are training manuals Power Point shows magazine articles all kinds of media to let an umpire know where he should stand what he has to do how and when to make a call But as far as I know there wasn't a simple list of bullet points an umpire could read before he went to work The Umpire's List of Lists is going to solve that problem Think of it as the Cliff Notes of working baseball I make it easy for you to review the material before you take the text Here's an example Every mechanics manual will explain that an umpire behind the plate should track the ball from the pitcher's hand all the way into the catcher's mitt Not to do so means the umpire might fall victim to tunnel vision Moreover failure to track the pitch to its end means the umpire may make up his mind too early The pitch that looks so good at the cutout suddenly breaks and the catcher must dive for the ball That's covered in the List of Lists this way
1 Track the pitch 2 Don't call the pitch too soon You want to know the steps involved in calling plays at first base There's a list What goes into an ejection report I've got a list What are effective techniques for controlling a game The Umpire's List of Lists lists them To paraphrase the guy on the TV ad You're gonna like the way you read I guarantee
