After the inspection the mechanic or agent for service should discuss this information with you Are you aware the pre purchase agreement you sign may be the single most important document among the dozen or so documents sometimes required And which specific items should you include in your purchase agreement Has your aircraft Or the One That You Are Thinking About Purchasing been subjected to less than scrupulous inspection and maintenance practices over the years Sometimes even a very competent pre purchase inspection does not include a complete inspection of the aircraft records because it is often very time consuming to read them thoroughly Positively the most enlightening pre buy inspection is a good evaluation of the aircraft maintenance records A complete evaluation will identify the current status of the aircraft as required by 14 CFR 91.417 uncover time frames of no maintenance or lack of maintenance identify inaccurate engine cycle tracking as well as aircraft time tracking and reveal aircraft damage history Prospective purchaser is responsible for discovering discrepancies that can only be revealed by in flight evaluation such as flight characteristics proper functioning of navigational instrumentation avionics and autopilot The purpose of the Pre purchase Inspection is to protect the interest of the buyer it is not intended to be an Annual Airworthiness Inspection
