Collective Bargaining at Company Level Isabelle Schömann, Romuald Jagodzinski, Guido Boni, Stefan Clauwaert, Vera Glassner and Teun Jaspers, 2012 Transnational collective bargaining TCB has become a hot topic of European industrial relations As well as collective bargaining between workers and employers conducted at the sectoral or national level negotiations on employee rights and working conditions now also take place at the supranational level within multinational companies It is a development that poses major challenges for trade unions as well as for employers and lawmakers This book takes stock of the particular challenges faced by trade union representatives works councils and employer organisations it reviews the existing literature on this topic and examines contrasting views of the prospects for subsequent development of this new practice it also offers some practical suggestions for policymakers who find themselves having to deal with this new component of the Europeanisation of industrial relations One of the key questions tackled in the book is whether a regulatory framework for TCB is feasible necessary and or useful Perhaps even more importantly can we given the proliferation of instances of TCB actually manage without such a legal system and what should be the main elements of such a framework By providing a better understanding and a critical analysis of the emergence and development of transnational collective bargaining the authors of this book offer valuable help to trade unionists and practitioners in preparing for and being prepared for this next stage in the internationalisation of industrial relations Negotiation & Dispute Resolution Beverly J.

Morriss, Samuel Estreicher, 2005-01-01 This important theme was the focus of New York University's 54th Annual Conference on Labor and Employment Law. This highly significant book reprints the papers presented at the 54th Conference with several additional papers. In its pages more than 40 noted labor and employment experts from a diverse range of countries and disciplines offer penetrating analyses of developments and trends in such areas as the following: Regulation of immigrant labor; legal issues facing undocumented workers; labor markets in border regions; guest worker programs; extraterritorial applications of U.S.

Beyond the Courtroom Hal Abramson, 2020-11-03 Beyond the Courtroom provides a compilation of articles and chapters by a dispute resolution scholar who has made remarkable contributions over his thirty-year career. Professor Abramson has focused his research and practice on parties trying to resolve their own disputes. This book includes publications that have contributed to launching the then new field of mediation representation with special attention on how attorneys as gatekeepers to mediation can effectively represent clients. The book also includes his original publications that have contributed to the emerging field of intercultural and international mediation and the already robust and mature field of negotiations.

Global Unions Kate Bronfenbrenner, 2011-05-02 To meet the challenges of globalization, unions must improve their understanding of the changing nature of corporate ownership structures and practices and they must develop alliances and strategies appropriate to the new environment. Global Unions includes original research from scholars around the world on the range of innovative strategies that unions use to adapt to different circumstances, industries, countries, and corporations in taking on the challenge of mounting cross-border campaigns against global firms. This collection emerges from a landmark conference where unionists, academics, and representatives of nongovernmental organizations from the Global South and the Global North met to devise strategies for labor to use when confronting the most powerful corporations such as Wal-Mart and Exxon-Mobil. The workplaces discussed here include agriculture, bananas, maritime labor, dock workers, manufacturing, apparel, automobiles, medical supplies, food processing, and services, school bus drivers. Kate Bronfenbrenner's introduction sets the stage followed by contributions describing specific examples from Asia, Latin America, and Europe. Bronfenbrenner's conclusion focuses on the key lessons for strengthening union power in relation to global capital.
