diet and health In 100 Million Years of Food biological anthropologist Stephen Le explains how cuisines of different cultures are a result of centuries of evolution finely tuned to our biology and surroundings Travelling around the world to places as far flung as Vietnam Kenya India and the US Stephen Le introduces us to people who are growing cooking and eating food using both traditional and modern methods striving for a sustainable healthy diet In clear compelling arguments based on scientific research Le contends that our ancestral diets provide the best first line of defense in protecting our health and providing a balanced diet Fast food diets as well as strict regimens like paleo or vegan in effect hijack our biology and ignore the complex nature of our bodies In 100 Million Years of Food Le takes us on a guided tour of evolution demonstrating how our diets are the result of millions of years of history and how we can return to a sustainable healthier way of eating 100 Million Years of Food could constitute a paradigm shift regarding how we view food The Globe and Mail Deliciously entertaining Jared Diamond winner of the Pulitzer Prize and the New York Times bestselling author of Guns Germs and Steel and Collapse Compelling and engaging Mark Kurlansky New York Times bestselling author of Salt i DESC food cooking history prehistoric people ancestral diet popular science history of food travelogue anthropology evolutionary biology food industry health fitness cancer heart disease obesity diabetes prevention nutrition future of food global gastronomy HEA048000 HEALTH FITNESS Diet Nutrition General CKB041000 COOKING History SCI027000 SCIENCE Life Sciences Evolution SCI008000 SCIENCE Life Sciences Biology 9781250017635 Jacqueline Bouvier Kennedy Onassis Leaming Barbara

The Human Body in Minutes Tom Jackson, 2017-06-06 This concise illuminating guide takes us on a comprehensive tour of our bodies explaining how they work and why they work that way from the basic unit of the cell through the tissues and organs that make up the body's systems to how these systems work together to form a complete human being from evolution genetics and conception through to disease death and how technology will transform the body of the future The Human Body in Minutes covers the features and functions of all the major body systems including the skeletal muscular digestive respiratory cardiovascular immune reproductive nervous and hormonal systems as well as human evolution inheritance and genetics human behavior and illness and medicine With 200 cutting edge anatomical images cross sections and closeups that detail and explain the brain eye heart skin skeleton lung kidney ear blood liver stomach muscles veins arteries DNA chromosomes and all of the key features of our bodies this is the perfect easy reference to the anatomy physiology and science of the human body **Why Is Sex Fun?** Jared M Diamond, 1998-09-25 From the New York Times bestselling author of Upheaval a fun and wide ranging exploration of why human sexuality is so different from other animals and how it made us who we are To us humans the sex lives of animals seem weird But it's our own sex lives that are truly bizarre We are the only social species to insist on carrying out sex privately Stranger yet we have sex at any time even during periods of infertility such as pregnancy or post menopause A human female doesn't know her precise time of fertility and certainly doesn't advertise it to human males by the striking color changes smells and sounds used by other female mammals Why do we differ

so radically in these and other important aspects of our sexuality from our closest ancestor the apes Why does the human female virtually alone among mammals go through menopause Why does the human male stand out as one of the few mammals to stay with the female he impregnates to help raise the children that he sired Why is the human penis so unnecessarily large There is no one better qualified than Jared Diamond to explain the evolutionary forces that operated on our ancestors to make us so different sexually With wit and a wealth of fascinating examples Why Is Sex Fun shows how our sexuality as much as our large brains or upright posture led to human rise in the animal kingdom
