When Washington Burned Robert P. Watson, 2023 Perhaps no other single day in US history was as threatening to the survival of the nation as August 24 1814 when British forces captured Washington DC It is a unique moment in American history that might have significantly altered the nation's path forward but the event and the reasons why it happened are little remembered by most Americans The British conquest of Washington DC during the War of 1812 happened because of inept American leadership a poorly trained and equipped military and a lack of foresight The burning of federal building including the White House and Capitol reversed a decade and a half of work to build the capital city The humiliation of a foreign army eating dinner at the president's table and the flight of the federal government reopened old questions about the survival of the United States what kind of government it would have and where its capital should be located Yet the British invasion was repulsed over the coming weeks and months and from the ashes of the capital city the United States ultimately emerged stronger Robert P Watson tells this almost forgotten history and probes questions about the American calamity British motives and what it all meant for the United States **Lectures on the Growth and Development of the United States ...** Edwin Wiley, 1915 **The United States** Edwin Wiley, Irving Everett Rines, 1912 *Journal ...* Vermont.
