Airlineidentitydesign And Culture

Phillip Vannini

Airline identity design And Culture:

Airline Keith Lovegrove, 2000 This work celebrates the culture of air travel from plane interiors and airline branding to food and fashion The book charts the development of all aspects of international air travel both elegant and chic kitsch and vulgar **Airline Operations** Peter J. Bruce, Yi Gao, John M. C. King, 2017-11-15 Written by a range of international industry practitioners this book offers a comprehensive overview of the essence and nature of airline operations in terms of an

operational and regulatory framework the myriad of planning activities leading up to the current day and the nature of intense activity that typifies both normal and disrupted airline operations The first part outlines the importance of the regulatory framework underpinning airline operations exploring how airlines structure themselves in terms of network and business model The second part draws attention to the operational environment explaining the framework of the air traffic system and processes instigated by operational departments within airlines The third part presents a comprehensive breakdown of the activities that occur on the actual operating day The fourth part provides an eye opener into events that typically go wrong on the operating day and then the means by which airlines try to mitigate these problems Finally a glimpse is provided of future systems processes and technologies likely to be significant in airline operations **Airline Operations A Practical Guide** offers valuable knowledge to industry and academia alike by providing readers with a well informed and interesting dialogue on critical functions that occur every day within airlines **Clothing and Fashion** José

Blanco F., Patricia Kay Hunt-Hurst, Heather Vaughan Lee, Mary Doering, 2015-11-23 This unique four volume encyclopedia examines the historical significance of fashion trends revealing the social and cultural connections of clothing from the precolonial times to the present day This sweeping overview of fashion and apparel covers several centuries of American history as seen through the lens of the clothes we wear from the Native American moccasin to Manolo Blahnik's contribution to stiletto heels Through four detailed volumes this work delves into what people wore in various periods in our country's past and why from hand crafted family garments in the 1600s to the rough clothing of slaves to the sophisticated textile designs of the 21st century More than 100 fashion experts and clothing historians pay tribute to the most notable garments accessories and people comprising design and fashion The four volumes contain more than 800 alphabetical entries with each volume representing a different era Content includes fascinating information such as that beginning in 1619 through 1654 every man in Virginia was required to plant a number of mulberry trees to support the silk industry in England what is known about the clothing of enslaved African Americans and that there were regulations placed on clothing design during World War II The set also includes color inserts that better communicate the visual impact of clothing and fashion across eras

The Geographies of Air Transport Andrew R. Goetz, Lucy Budd, 2016-03-09 Making a detailed contribution to geographies of air transport and aeromobility this book examines the practices and processes that produce particular patterns of air transport provision both regionally and globally In so doing it updates the seminal contributions of Eva Taylor 1945 Kenneth

Sealy 1957 Brian Graham 1995 and others to the study of air transport geography Leading scholars in the field offer a unique insight into the key developments that have occurred in the field and the implications that these developments have had for geography geographers and global patterns of past present and future air transport Although globalization and liberalization processes have greatly expanded the demand for air transport over the last two decades the industry has experienced several major setbacks due to economic security and environmental concerns Many of these impacts have been much more pronounced in some regions such as North America and Europe while others such as Asia Pacific have not been as adversely affected Accordingly there is a clear need to examine these recent economic and geopolitical changes from a geographical perspective given the differentiated pattern of effects from global processes Addressing this need this volume opens with thematic chapters covering key topics such as the historical geographies socio cultural mobilities environmental externalities urban geographies and sustainability of the global air transport industry followed by regional analysis of the industry in Asia Pacific Latin America Greater Middle East and Africa as well as North America and Europe

The Cultures of Alternative Mobilities Phillip Vannini, 2016-03-16 The Cultures of Alternative Mobilities presents a series of ethnographic studies focusing on the local cultures of mobilities and immobilities emphasizing the everyday sense of contingency and heterogeneity that accompanies them Compensating for the excess of theory and criticism based on the notion of hypermobilities this book sheds light on the nuanced differences and idiosyncrasies of mobility with a view to rediscovering meanings and lifestyles marked by movement and immobility Original empirical and global case studies are presented by an international team of scholars exploring the complex negotiated and contingent nature of the social worlds of movement By avoiding sweeping generalizations on the deeply connected and readily mobile nature of society as a whole this volume sheds light on the diversity of mobility modes in an accessible and interdisciplinary form that will be of key interest to sociologists geographers and scholars of human mobility communication and culture

Imagining Flight A. Bowdoin Van Riper, 2004 Imagining Flight is a history of the air age as the rest of us have experienced it on the pages of books the screens of movie theaters and the front pages of newspapers It focuses on the United States but also contrasts American ideas and attitudes with those of other air minded nations including Britain France Germany and Japan

Food for Thought Lawrence C. Rubin, 2014-01-10 Historically few topics have attracted as much scholarly professional or popular attention as food and eating as one might expect considering the fundamental role of food in basic human survival Almost daily a new food documentary cooking show diet program food guru or eating movement arises to challenge yesterday's dietary truths and the ways we think about dining This work brings together voices from a wide range of disciplines providing a fascinating feast of scholarly perspectives on food and eating practices contemporary and historic local and global Nineteen essays cover a vast array of food related topics including the ever increasing problems of agricultural globalization the contemporary mass marketing of a formerly grassroots movement for organic food production the Food Network's successful mediation of social

class the widely popular phenomenon of professional competitive eating and current trends in culinary tourism and fast food advertising Instructors considering this book for use in a course may request an examination copy here *Aerial Archives of Race* Etsuko Taketani, 2026-01-06 Opening new archives and narratives that emerge when we take an aerial turn in transpacific studies Etsuko Taketani examines the genealogy and contours of the aerial imaginary and the corollary shifting planetary imaginary that evolved in a transnational space she terms the black nuclear Pacific Following the first aerial drop of an atom bomb on humans and the subsequent military occupation of Japan by the United States African American Japanese encounters happened on a scale unimaginable before the war Through texts from a diverse range of artists writers and political thinkers such as the NAACP's Walter White lawyer Edith Sampson Josephine Baker Langston Hughes Lorraine Hansberry and Malcolm X who had formative interactions with occupied Japan Taketani uncovers and analyzes African American cultural expressions that include a quasi alien abduction narrative a creation of a new tribe in the image of a rainbow on Earth a black futuristic apocalypse and a racial fantasy of the Mother Plane Through these cultural expressions *Aerial Archives of Race* tracks the black networks and exchanges with Japan from above that provoked new ways of thinking about human races on planet Earth Provided by publisher *Cockpit Confidential* Patrick Smith, 2018-06-05 NEW YORK TIMES BESTSELLER A fascinating fear of flying book from a commercial airline pilot and author of the popular website askthepilot.com For millions of people travel by air is a confounding uncomfortable and even frightening experience When you go behind the scenes however you can see that the grand theater of air travel is actually fascinating From the intricate design of airport architecture to the logistics of inflight service here is everything you need to know about flying Commercial airlines like to hide the truth from customers and do nothing to comfort nervous fliers And what's scarier than the unknown In this aviation book pilot Patrick Smith breaks down that barrier and tells you everything you need to know about flying including How planes fly and a revealing look at the men and women who fly them Straight talk on turbulence pilot training and safety The real story on delays congestion and the dysfunction of the modern airport The myths and misconceptions of cabin air and cockpit automation Terrorism in perspective and a provocative look at security Airfare seating woes and the pitfalls of airline customer service The true colors and cultures of the airlines we love to hate *Cockpit Confidential* is a thoughtful funny and at times deeply personal look into the strange and misunderstood world of commercial flying If you liked other books about airplanes for adults including *Soar* by Tom Bunn or *Skyfaring* you'll find reassurance humor and guidance in *Cockpit Confidential* Anyone remotely afraid of flying should read this book as should anyone who appreciates good writing and great information The New York Times on ASK THE PILOT Patrick Smith is extraordinarily knowledgeable about modern aviation the ideal seatmate a companion writer and explorer Boston Globe *The Prefabricated Interior* Deborah Schneiderman, 2024-11-12 Though much attention has been given to the prefabrication of architecture there has been little discussion on the influence and importance of prefabrication within the interior environment This book does just

that providing a comprehensive investigation into the prefab interior from the 19th century to the present and beyond Each chapter focuses on a typology of the prefabricated interior looking at the bathroom kitchen workspace furniture mobile interiors the prefab house textiles wearables and the digital realm of printed interiors Taken as a group these chapters and illustrations indicate that constructs of the interior have been pivotal in the generation of techniques and processes of prefabrication in architecture and the built environment Chapters explore a diverse range of examples of innovative prefabricated elements and assemblages within interior environments illustrating the inherent sustainability accessibility building efficiency and affordability of prefabricated design The culmination of a decade of research by the leading expert on the topic this will be the go to resource on prefabricated interiors and an important read for all students and researchers in interior design
