Models of Parallel Computing S. Noguchi, Ota Masahiro, 1997 The 21st century will be the age of network computing Among the many key technologies in this field parallel computing and networking technology will play very important roles In this book emphasis is placed on networking and modeling parallel computing The topics cover parallel computing algorithms parallel software massively parallel computing systems and related applications Articles cover parallel computing networking and related applications to initiate discussions Since the appearance of Transputer chip T9000 C104 and standardizations of IEEE1355 Transputer systems seem to have opened a new interesting area of parallel computing networking and many practical applications **Translating Cultures** David Katan, 2014-06-03 As the 21st century gets into stride so does the call for a discipline combining culture and translation This second edition of Translating Cultures retains its original aim of putting some rigour and coherence into these fashionable words and lays the foundation for such a discipline This edition has not only been thoroughly revised but it has also been expanded In particular a new chapter has been added which focuses specifically on training translators for translational and intercultural competencies The core of the book provides a model for teaching culture to translators interpreters and other mediators It introduces the reader to current understanding about culture and aims to raise awareness of the fundamental role of culture in constructing perceiving and translating reality Culture is perceived throughout as a system for orienting experience and a basic presupposition is that the organization of experience is not reality but rather a simplified model and a distortion which varies from culture to culture Each culture acts as a frame within which external signs or reality are interpreted The approach is interdisciplinary taking ideas from

contemporary translation theory anthropology Bateson's logical typing and metamodel theories Bandler and Grinder's NLP meta model theory and Halliday's functional grammar Authentic texts and translations are offered to illustrate the various strategies that a cultural mediator can adopt in order to make the different cultural frames he or she is mediating between more explicit
