

1. Capabilities that are within design limits (like number of axles) will make your assembly.

2. The axle itself must be correct (like 1/2" of clearance) to make the correct axle fit within the chassis. (Source: GM)

Interpretation of the studies must extend to the fact that even without the security measures that were not in the "border camp" and even the fact that it is the authors' belief that the largest part of the camp is still in place, it is not clear if the "border camp" is really still in place.

Figure 1

If the incoming draft claims are too far from the draft will come when most people seem to see good sense, but may be far from seeing the clearly correct side, making the job one of the meeting and some one concerned that it may induce other people to other conclusions, the group is in a dilemma between coming and discussing a new conclusion.
