Observations Upon the Natural History of Epidemic Diarrhoea (Classic Reprint) O. H. Peters, 2018-02-06 Excerpt from Observations Upon the Natural History of Epidemic Diarrhoea The causative agencies from which springs the plentiful harvest of child mortality in large cities may be conceived as a felted mass of rootlets almost inextricably intertwined Those of poverty bad housing bad feeding and neglect may be severally recognized but the extent of their interrelations with actual respiratory and alimentary disease those to which the greater part of the mortality is referred can be traced only with difficulty It is the object Of this work to aid In the labour of cutting away the matrix and entangling fibres and to lay bare the hidden ramifications of at least one important causative agency epidemic diarrhoea This affection if we accept provisionally the more novel and generally favoured conception As to its nature is revealed as something very like an ordinary infectious disease and one which permeates all classes while the excessive mortality it gathers round itself in urban centres must be regarded as something superadded owing to the vicious circle it forms with those baneful conditions of slum life mentioned above On the other hand its peculiarly intimate association with the circumstances of domestic life from the continual faecal pollution of the interior of the household by infants and others tends to make it more so than other affections of the kind peculiarly a class disease and an especial scourge of dirty neighbourhoods Dirty towns may however be saved from excessive mortality by a high percentage of breast feeding A notable point in the interesting comparison that can be drawn between diarrhoea and typhoid fever is that in accordance with their peculiarly opposite age incidence curves the marked and habitual depositing of infectious excreta within the household in the former disease may make the question of water closet versus conservancy pan a matter of far less importance than in the latter About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
