At Empires Edge Exploring Romes Egyptian Frontier:

At Empire's Edge Robert B. Huebner, Eugenio Garosi, Isabelle Marthot-Santaniello, Matthias Müller, Stefanie Schmidt, Matthias Stern, 2020-05-05 This volume covers the transition period stretching from the reign of Justinian I to the end of the 8th century focusing on the experience of individuals who lived through the last decades of Byzantine rule in Egypt before the arrival of the new Arab rulers The contributions drawing from the wealth of sources we have for Egypt explore phenomena of stability and disruption during the transition from the classical to the postclassical world

Ancient Egypt Alan B. Lloyd, 2014-06 In *Ancient Egypt State and Society* Alan B Lloyd attempts to define analyse and evaluate the institutional and ideological systems which empowered and sustained one of the most successful civilizations of the ancient world for a period in excess of three and a half millennia The volume adopts the premise that all societies are the product of a continuous dialogue with their physical context understood in the broadest sense and that in order to achieve a successful symbiosis with this context they develop an interlocking set of systems defined by historians archaeologists and anthropologists as culture Culture therefore can be described as the sum total of the methods employed by a group of human beings to achieve some measure of control over their environment Covering the entirety of the civilization and featuring a large number of up to date translations of original Egyptian texts *Ancient Egypt* focuses on the main aspects of Egyptian culture which gave the society its particular character and endeavours to establish what allowed the Egyptians to maintain that character for an extraordinary length of time despite enduring cultural shock of many different kinds

The History of the Peoples of the Eastern Desert Hans Barnard, Kim Duistermaat, 2012-12-31 The last quarter century has seen extensive research on the ports of the Red Sea coast of Egypt the road systems connecting them to the Nile and the mines and quarries in the region Missing has been a systematic study of the peoples of the Eastern Desert the area between the Red Sea and the Nile Valley in whose territories these ports roads mines and quarries were located The historical overview of the Eastern Desert in the shape of a roughly chronological narrative presented in this book fills that gap The multidisciplinary perspective focuses on the long term history of the region The extensive range of topics addressed includes specific historical periods natural resources nomadic survival strategies ancient textual data and the interaction between Christian hermits and their neighbors The breadth of perspective does not sacrifice depth for all authors deal in some detail with the specifics of their subject matter As a whole this collection provides an outline of the history and sociology of the Eastern Desert unparalleled in any language for its comprehensiveness As such it will be the essential starting point for future research on the Eastern Desert Includes a CD of eleven audio files with music of the Ababda Nomads and six short videos of Ababda culture

Rome and the Indian Ocean Trade from Augustus to the Early Third Century CE

Matthew A. Cobb, 2018-11-15 In *Rome and the Indian Ocean Trade from Augustus to the Early Third Century CE* Matthew Adam Cobb examines the development of commercial exchange between the Mediterranean and the Indian Ocean worlds from the Roman annexation of Egypt 30 BCE up to the early third century CE Among the issues considered are the identities of those involved how they organised and financed themselves the challenges they faced scheduling logistics security sailing conditions and the types of goods they traded Drawing upon an expanding corpus of new evidence Cobb aims to reassess a number of long standing scholarly assumptions about the nature of Roman participation in this trade These range from its chronological development to its economic and social impact

Egypt from Alexander to the Copts Roger S.

Bagnall, Dominic W. Rathbone, 2017-05-01 After its conquest by Alexander the Great in 332 bc Egypt was ruled for the next 300 years by the Ptolemaic dynasty founded by Ptolemy I one of Alexander's generals With the defeat of Cleopatra VII in 30 bc Egypt became a province of the Roman Empire and later of the Byzantine Empire For a millennium it was one of the wealthiest most populous and important lands of the multicultural Mediterranean civilization under Greek and Roman rule The thousand years from Alexander to the Arab conquest in ad 641 are rich in archaeological interest and well documented by 50 000 papyri in Greek Egyptian Latin and other languages But travelers and others interested in the remains of this period are ill served by most guides to Egypt which concentrate on the pharaonic buildings This book redresses the balance with clear and concise descriptions related to documents and historical background that enable us to appreciate the fascinating cities temples tombs villages churches and monasteries of the Hellenistic Roman and Late Antique periods Written by a dozen leading specialists and reflecting the latest discoveries and research it provides an expert visitor's guide to the principal cities many off the well worn tourist paths It also offers a vivid picture of Egyptian society at differing

economic and social levels The Red Land Steven E. Sidebotham, Martin Hense, Hendrikje M. Nouwens, 2008 For thousands of years Egypt has crowded the Nile Valley and Delta The Eastern Desert however has also played a crucial though until now little understood role in Egyptian history Ancient inhabitants of the Nile Valley feared the desert which they referred to as the Red Land and were reluctant to venture there yet they exploited the extensive mineral wealth of this region They also profited from the valuable wares conveyed across the desert between the Nile and the Red Sea ports which originated from Arabia Africa India and elsewhere in the east Based on twenty years of archaeological fieldwork conducted in the Eastern Desert The Red Land reveals the cultural and historical richness of this little known and seldom visited area of Egypt A range of important archaeological sites dating from Prehistoric to Byzantine times is explored here in text and illustrations Among these ancient treasures are petroglyphs cemeteries fortified wells gold and emerald mines hard stone quarries roads forts ports and temples With 250 photographs and fascinating artistic reconstructions based on the evidence on the ground along with the latest research and accounts from ancient sources and modern travelers the authors lead the reader into the remotest corners of the hauntingly beautiful Eastern Desert to discover the full story of the area's human history

Roads in the Deserts of Roman Egypt Maciej Paprocki, 2019-07-19 Egypt under the Romans 30 BCE 3rd century CE was a period when local deserts experienced an unprecedented flurry of activity In the Eastern Desert a marked increase in desert traffic came from imperial prospecting quarrying activities and caravans transporting wares to and from the Red Sea ports In the Western Desert resilient camels slowly became primary beasts of burden in desert travel enabling caravaneers to lengthen daily marching distances across previously inhospitable dunes Desert road archaeology has used satellite imaging landscape studies and network analysis to plot desert trail networks with greater accuracy however it is often difficult to date roadside installations and thus assess how these networks evolved in scope and density in reaction to climatic social and technological change Roads in the Deserts of Roman Egypt examines evidence for desert roads in Roman Egypt and assesses Roman influence on the road density in two select desert areas the central and southern section of the Eastern Desert and the central Marmarican Plateau and discusses geographical and social factors influencing road use in the period demonstrating that Roman overseers of these lands adapted remarkably well to local desert conditions improving roads and developing the trail network Crucially the author reconceptualises desert trails as linear corridor structures that follow expedient routes in the desert landscape passing through at least two functional nodes attracting human traffic be those water sources farmlands mines quarries trade hubs military installations or actual settlements The route of least resistance across the desert varied from period to period according to the available road infrastructure and beasts of burden employed Roman administration in Egypt not only increased the density of local desert node networks but also facilitated internodal connections with camel caravans and transformed the Sahara by establishing new or embellishing existing nodes effectively funnelling desert traffic into discernible corridors Significantly not all desert areas of Egypt are equally suited for

anthropogenic development but almost all have been optimised in one way or another with road installations built for added comfort and safety of travellers Accordingly the study of how Romans successfully adapted to desert travel is of wider significance to the study of deserts and ongoing expansion due to global warming **African Kingdoms** Saheed Aderinto, 2017-08-24 This history rich volume details the sociopolitical economic and artistic aspects of African kingdoms from the earliest times to the second half of the 19th century Africa has a long and fascinating history and is a place of growing importance in the world history curriculum This detailed encyclopedia covers the history of African kingdoms from antiquity through the mid 19th century tracing the dynasties ties to modern globalization and influences on world culture before during and after the demise of the slave trade Along with an exploration of African heritage this reference is rich with firsthand accounts of Africa through the oral traditions of its people and the written journals of European explorers missionaries and travelers who visited Africa from the 15th century and onward Alphabetically arranged entries cover a particular kingdom and feature information on the economic cultural religious political social and environmental history of the regime The content references popular culture movies and art that present contemporary reenactments of kingdoms emphasizing the importance of history in shaping modern ideas Other features include primary source documents a selected bibliography of print and electronic resources and dozens of sidebars containing key facts and interesting trivia
