Jennifer Jahner, Ingrid Nelson

At The Borders Of Sleep On Liminal Literature:

At the Borders of Sleep Peter Schwenger, 2014-05-14 *At the Borders of Sleep* investigates a liminal or threshold state between two fundamental modes of human consciousness the waking state and the sleeping one which are not as distinct from one another as is commonly thought Liminal states are so subtle and evanescent that only literary depictions can do them justice and so literature along with philosophy and some science has generated this book's argument That argument is then turned back upon literature to show how both reading and writing are liminal experiences taking place at the edges of conscious thought

At the Edges of Sleep Jean Ma, 2022-10-04 A free open access ebook is available upon publication Learn more at www.luminosoa.org Many recent works of contemporary art performance and film turn a spotlight on sleep wresting it from the hidden private spaces to which it is commonly relegated *At the Edges of Sleep* considers sleep in film and moving image art as both a subject matter to explore onscreen and a state to induce in the audience Far from negating action or meaning sleep extends into new territories as it designates ways of existing in the world in relation to people places and the past Defined positively sleep also expands our understanding of reception beyond the binary of concentration and distraction These possibilities converge in the work of Thai filmmaker and artist Apichatpong Weerasethakul who has explored the subject of sleep systematically throughout his career In examining Apichatpong's work Jean Ma brings together an array of interlocutors from Freud to Proust George Melis to Tsai Ming-liang Weegee to Warhol to rethink moving images through the lens of sleep Ma exposes an affinity between cinema spectatorship and sleep that dates to the earliest years of filmmaking and sheds light upon the shifting cultural valences of sleep in the present moment

Liminality and the Short Story Jochen Achilles, Ina Bergmann, 2014-12-05 This book is a study of the short story one of the widest taught genres in English literature from an innovative methodological perspective Both liminality and the short story are well researched phenomena but the combination of both is not frequent This book discusses the relevance of the concept of liminality for the short story genre and for short story cycles emphasizing theoretical perspectives methodological relevance and applicability Liminality as a concept of demarcation and mediation between different processual stages spatial complexes and inner states is of obvious importance in an age of global mobility digital networking and interethnic transnationality Over the last decade many symposia exhibitions art and publications have been produced which thematize liminality covering a wide range of disciplines including literary geographical psychological and ethnicity studies Liminal structuring is an essential aspect of the aesthetic composition of short stories and the cultural messages they convey On account of its very brevity and episodic structure the generic liminality of the short story privileges the depiction of transitional situations and fleeting moments of crisis or decision It also addresses the moral transgressions heterotopic orders and forms of ambivalent self reflection negotiated within the short story's confines This innovative collection focuses on both the liminality of the short story and on liminality in the short story

Landscapes of Liminality Dara Downey, Ian Kinane, Elizabeth Parker, 2016-11-16 *Landscapes*

of Liminality expands upon existing notions of spatial practice and spatial theory and examines more intricately the contingent notion of liminality as a space of in between ness that avoids either essentialism or stasis It capitalises on the extensive research that has already been undertaken in this area and elaborates on the increasingly important and interrelated notion of liminality within contemporary discussions of spatial practice and theories of place Bringing together international scholarship the book offers a broad range of cross disciplinary approaches to theories of liminality including literary studies cultural studies human geography social studies and art and design The volume offers a timely and fascinating intervention which will help in shaping current debates concerning landscape theory spatial practice and discussions of liminality

Sleep and the Novel Michael Greaney, 2018-04-04 *Sleep and the Novel* is a study of representations of the sleeping body in fiction from 1800 to the present day which traces the ways in which novelists have engaged with this universal indispensable but seemingly nondescript region of human experience Covering the narrativization of sleep in Austen the politicization of sleep in Dickens the queering of sleep in Goncharov the aestheticization of sleep in Proust and the medicalization of sleep in contemporary fiction it examines the ways in which novelists envision the figure of the sleeper the meanings they discover in human sleep and the values they attach to it It argues that literary fiction harbours on its margins a sleeping partner one that we can nickname the Schlafroman or sleep novel whose quiet absorption in the wordlessness and passivity of human slumber subtly complicates the imperatives of self awareness and purposive action that traditionally govern the novel

The Liminality of Fairies Piotr Spyra, 2020-05-13 Examining the fairies of medieval romance as liminal beings this book draws on anthropological and philosophical studies of liminality to combine folkloristic insights into the nature of fairies with close readings of selected romance texts Tracing different meanings and manifestations of liminality in Sir Gawain and the Green Knight Sir Orfeo Sir Launfal Thomas of Erceldoune and Robert Henryson s Orpheus and Eurydice the volume offers a comprehensive theory of liminality rooted in structuralist anthropology and poststructuralist theory Arguing that romance fairies both embody and represent the liminal *The Liminality of Fairies* posits and answers fundamental theoretical questions about the limits of representation and the relationship between romance hermeneutics and criticism The interdisciplinary nature of the argument will appeal not just to medievalists and literary critics but also to anthropologists folklorists as well as scholars working within the fields of cultural history and contemporary literary theory

At the Edge of Existence Brandon West, 2021-12-03 Few scary stories begin with a disclaimer that they are fictional Instead they claim to be true even when they are not Such stories blur the line between fiction and reality pushing audiences to consider where fiction ends and reality begins These kinds of horror stories comprise the understudied subgenre of liminal horror As the first book on this subject this volume surveys a variety of liminal horror films It discusses the different variations within liminal horror s sub genres and considers why horror films are obsessed with the natures of and borders between fiction and reality After first laying out the basic traits of the horror genre in the context

of liminality this book then dives into film more specifically and how the medium is uniquely situated to explore the movement between the fictional and the real Through lenses such as dreaming memory and perception the following chapters explore the role liminal horror plays in the the human psyche s subconscious unconscious and the various functions of the human mind in perceiving or misperceiving reality

Minding Dolls Lisa Pavlik-Malone, 2019-01-29 This book

explores the symbolic relationship between the self and the object Specifically in terms of my objectified being in which the original physical nature of the thing includes its being alive but loses this phenomenological quality in a sense as one's own personal meaning comes to imbue it Here the thing is a living breathing human being that becomes an intimate manifestation of one's own imagined experience of the doll Integral to the morphing or shaping of this essentially private experience may be certain cognitively universal substrates such as archetypal patterns as well as idealistic tendencies of that which is desired Both of these may contribute to the shaping of one's subjective experience of the doll This book will be of interest to scholars and researchers concerned with how cognition including psychology and the brain psychology and literature psychology and art and philosophy of mind might relate specifically to understanding the subjective experience of the doll
