When we hear the term fast food toys many of us picture specific favorites Whether they be the McDonald's Changeables Burger King's expansive Lord of the Rings figurines or the Star Wars Episode I premiums that gripped Taco Bell KFC and Pizza Hut simultaneously chances are high that you have a nostalgic go to But why Perhaps the element of surprise an unexpected toy accompanying your lunch delighted you as a child Maybe you loved the promotion's source material and wanted to collect everything within its domain Or it could be that this tiny random plaything intersected with your life at just the inexplicably right moment Whatever the case may be toys tucked into kids meals are designed to be disposable but many of our experiences prove them to be anything but While there are many books devoted to cataloguing various fast food promotional products this is the first to undertake a deep analysis of their cultural impact By digging deep into kids meals past and present this work uncovers the history of their toys This work guides examines the ways in which these simple prizes interact with societal factors like race gender class and economics by connecting their analyses with the work of top theorists In so doing we learn why these allegedly forgettable toys embed in memory not because of the toy at the bottom of a brightly colored food container but because there in the in between space of toy and meal permanent and temporary meaningless and meaningful we find ourselves

Sometimes Like Dimes Thom Slofer, 2011-01-12 Sometimes Like Dimes Life Lessons in the Steel City is about Thom Slofer and chronicles his experiences growing up and becoming older in the Hill District neighborhood of Pittsburgh Pennsylvania USA in the 1980's and 90's During this time period the people life passages and the changing surroundings are described as they affect him The Hill was once a thriving inner city neighborhood World famous jazz musicians once played in the ballrooms and jazz clubs nightly the Hill District was to Pittsburgh what Harlem is to New York City Hard economic times before and after the 1980's hit the once economically thriving black community at the foot of downtown Pittsburgh hard The Hill was now nothing more than a snapshot of economic demise The successes and setbacks through his high school years and into his young adult life are chronicled Older women he became involved with showed him another way to be despite peer and neighborhood influences He graduates high school to attend college but drops out and obtains a reasonable job but the streets and their influences are present He becomes a part time bartender then begins to carry a gun before losing his job and succumbing to low self esteem He's then forced to survive on the streets but refuses to take part in any crime He rises above and eventually beyond the streets but the lessons street life taught stayed within him Sometimes Like Dimes Life Lessons in the Steel City not only demonstrates that if every man were to write a book about his experiences every story would be unique but is also a lens to view what it was like to live life in Southwestern Pennsylvania USA

innovative analysis Ian Bogost examines the way videogames mount arguments and influence players Drawing on the 2 500 year history of rhetoric the study of persuasive expression Bogost analyzes rhetoric s unique function in software in general and videogames in particular The field of media studies already analyzes visual rhetoric the art of using imagery and visual representation persuasively Bogost argues that videogames thanks to their basic representational mode of procedurality rule based representations and interactions open a new domain for persuasion they realize a new form of rhetoric Bogost calls this new form procedural rhetoric a type of rhetoric tied to the core affordances of computers running processes and executing rule based symbolic manipulation He argues further that videogames have a unique persuasive power that goes beyond other forms of computational persuasion Not only can videogames support existing social and cultural positions but they can also disrupt and change these positions themselves leading to potentially significant long term social change Bogost looks at three areas in which videogame persuasion has already taken form and shows considerable potential politics advertising and learning
