**Aboriginal Peoples and Birds in Australia** Philip A. Clarke, 2023-04-03 Australia is home to many distinctive species of birds and Aboriginal peoples have developed close alliances with them over the millennia of their custodianship of this country. *Aboriginal Peoples and Birds in Australia: Historical and Cultural Relationships* provides a review of the broad physical, historical, and cultural relationships that Aboriginal people have had with the Australian avifauna. This book aims to raise awareness of the alternative bodies of ornithological knowledge that reside outside of Western science. It describes the role of birds as totemic ancestors and spirit beings and explores Aboriginal bird nomenclature, foraging techniques, and the use of avian materials to make food, medicine, and artefacts. Through a historical perspective, this book examines the gaps between knowledge systems of Indigenous peoples and Western science to encourage greater collaboration and acknowledgment in the future. Cultural sensitivity: Readers are warned that there may be words, descriptions, and terms used in this book that are culturally sensitive and which might not normally be used in certain public or community contexts. While this information may not reflect current understanding, it is provided by the author in a historical context. This publication may also contain quotations, terms, and annotations that reflect the historical attitude of the original author or that of the period in which the item was written and may be considered inappropriate today. Aboriginal and Torres Strait Islander peoples are advised that this publication may contain the names and images of people who have passed away. Joshua Gilbert explores a new approach to Indigenous culture and farming, combining ancient knowledge and practices with new technology and insights. Starting from his own Worimi Country, where his family history is captured in the journals of the Australian Agricultural Company among the earliest written records of agricultural practice on this continent, Josh listens to yarns about the farming that has always been and continues to take place on that Country, which demonstrate that Indigenous culture is not static; it can account for and inform our approaches to land and climate even as they are changing. As he contemplates these stories and histories, Josh seeks to provide a new understanding that Australians

as a nation of farmers and land managers need to develop our agricultural system into one where Indigenous and Western knowledges converge One where we acknowledge the realities of Australia s farming heritage both positive and negative and find ways to feed our population while caring for Country and ensuring the livelihood of Australia s farming towns He explores what it means to be an Aboriginal person today what it means to be a farmer and even what it means to say you are Australian Where these notions overlap and how we might start to weave a common story that brings together all these ideas So that we can create a truly Australian agricultural yarn one that we all build together *The Dairy* ,1915 **The**
