With each new concept, exercises are included to allow students to practice and reinforce their knowledge. Students are encouraged to analyse how texts are constructed and how language is used in a variety of situations. This provides a sound basis for language development. Contents: nouns and pronouns, verbs, adjectives and adverbs, sentences and clauses, making sense, punctuation, text types, glossary, index. **SUBALTERN DISCOURSES** T. Deivasigamani, 2019-06-04

Monte grew up in a secretive century. She lived in a society where appearances mattered and keeping them up often involved creating silence around ancestral origins, painful memories, and personal desires. Monte Punshon refused to be labelled. She was at various times Ethel May Punshon, Miss Montague, Monte Mickey, and Erica Morley Punshon, moving effortlessly from the Methodist respectability of bourgeois Ballarat to the bohemian world of children's travelling theatre, from patriotic amateur acting to pioneering radio work, from a dear old lady with perfect nineteenth-century diction to the bad girl who frequented edgy Melbourne bars, playing a lively part in the secret drag parties of 1930s queer Melbourne. There were social as well as personal reasons for her concealment. In a life that spanned more than a century, 1882 to 1989, Monte Punshon witnessed crucial events in Australia's history, and her story shines a light on the hidden corners and complexities of late nineteenth and twentieth-century society. In this imaginative biography, Tessa Morris-Suzuki brings to life a woman who was unafraid to be and who accepted willingly the price of her liberation. **Floods in an Arid Continent**, 2007-04-18
Nowhere are floods more paradoxical than in the generally arid Australian continent. *Floods in an Arid Continent* brings together experts in meteorology, hydrology, limnology, ornithology, landscape ecology, veterinary and medical sciences, economics, anthropology, and sociology to synthesize current knowledge on floods, their occurrence, and their consequences for the environment and societies in the Australian context. Floods can have either beneficial or detrimental effects on the landscape and human societies. This book fills this important gap in our study and offers a multidisciplinary approach in understanding the effects of global climate change. The editors provide complete coverage on dynamics, patterns, and consequences of floods studied from several perspectives. Although the geographic focus of the book is Australia, the synthesis that is detailed in this book will undoubtedly be useful for the understanding of floods in all other regions of the planet. Offers detailed trends of effects on global climatic change. Provides an understanding of past and future floods in Australia. Discusses disturbances on
