A Formal Framework for the Analysis of Human-Machine Interactions Sébastien Combéfis, 2013-12 There are more and more automated systems with which people are led to interact everyday Their complexity increases and badly designed systems may result in automation

surprises The contribution of this thesis is a formal analysis framework to assess whether a system is prone to potential automation surprises in an interaction *Leveraging Generative Intelligence in Digital Libraries: Towards Human-Machine Collaboration* Dion H. Goh, Shu-Jiun Chen, Suppawong Tuarob, 2023-11-29 This two volume set LNCS 14457 and LNCS 14458 constitutes the refereed proceedings of the 25th International Conference on Asia Pacific Digital Libraries ICADL 2023 held in Taipei Taiwan during December 4 7 2023 The 15 full 17 short 2 practice papers and 12 poster papers presented in this volume were carefully reviewed and selected from 85 submissions Based on significant contributions the full and short papers have been classified into the following topics include information retrieval knowledge extraction and discovery cultural and scholarly data information seeking and use digital archives and data management design and evaluation of information environments and applications of GAI in digital libraries **Fun and Software** Olga Goriunova, 2016-05-19 Fun and Software offers the untold story of fun as constitutive of the culture and aesthetics of computing Fun in computing is a mode of thinking making and experiencing It invokes and convolutes the question of rationalism and logical reason addresses the sensibilities and experience of computation and attests to its creative drives By exploring topics as diverse as the pleasure and pain of the programmer geek wit affects of play and coding as a bodily pursuit of the unique in recursive structures Fun and Software helps construct a different point of entry to the understanding of software as culture Fun is a form of production that touches on the foundations of formal logic and precise notation as well as rhetoric exhibiting connections between computing and paradox politics and aesthetics From the formation of the discipline of programming as an outgrowth of pure mathematics to its manifestation in contemporary and contradictory forms such as gaming data analysis and art fun is a powerful force that continues to shape our life with software as it becomes the key mechanism of contemporary society Including chapters from leading scholars programmers and artists Fun and Software makes a major contribution to the field of software studies and opens the topic of software to some of the most pressing concerns in contemporary theory Research & Education in Design: People & Processes & Products & Philosophy Rita Almendra, João Ferreira, 2020-05-27 Design is about the creation of meaningful connections to solve problems and advance human wellbeing the discipline has always explored the beneficial links between form and function technology and meaning beauty and utility people and artefacts and problems and solutions among others This book focuses on the crucial connection between design research and design education Contemporary society grows increasingly hyper complex and globally competitive This state of affairs raises fundamental questions for both Design Education and Design Research Should research skills be integrated into undergraduate courses How can we modify design courses without compromising the positive aspects of the educational studio experience Can the three cycles of higher education in design be combined into a creative and inquisitive educational continuum To examine the relationship between research and education in Design we must address the topic of knowledge keeping in mind that the development and dissemination of new and useful knowledge is the core purpose of a University If

we agree that design has its own things to know and ways to find out about them then design knowledge resides in people processes products and philosophy This book explores the intersection of these four areas with the aim of uncovering insights to advance the current state of the design discipline Perspective on Design Daniel Raposo, João Neves, José Silva, 2019-11-23 This book presents the outcomes of recent endeavors that are expected to foster significant advances in the areas of communication design fashion design interior design and product design as well as overlapping areas The fourteen chapters highlight carefully selected contributions presented during the 6th EIMAD conference held on February 22 23 2018 at the School of Applied Arts Campus da Talagueira in Castelo Branco Portugal They report on outstanding advances that offer new theoretical perspectives and practical research directions in design and which are aimed at fostering communication in a global digital world while also addressing key individual and societal needs
