Abstract Expressionism Basic Barbara Hess:

Abstract Expressionism Barbara Hess, 2016 Abstract expressionism refers to the non representational use of form and color as a means of expression that emerged in America in the 1940s These artists had striven to express pure emotion directly on canvas via color and texture

A New Approach to the Arts Peter Moore, 2024-07-09 This book considers how art actually works how the various art forms connect with the world of ordinary human experience Many books approach the subject from the top down through topics such as the nature of beauty the meaning of art aesthetic judgement and so on The present book examines the subject from the ground up so to speak showing how the creation and appreciation of art spring from innate human needs and capacities What we call the arts emerge organically from the habitual activities through which human beings represent the world to themselves and others Artistic representation always more than mere imitation is a reaching for the spirit of a subject a revealing of the implicit a refreshing of the overly familiar A key idea is that art is representation through convention that artistic conventions far from inhibiting the work of the artist are vital to artistic creativity

Cubism Anne Ganteführer-Trier, 2004 As you ll find out in this guide to the fundamentals of cubism there is more to the genre than its most famous proponent Cubism often identified by flattened geometric shapes overlapping simplified forms and fragmented spatial planes was quite possibly the most influential movement in 20th century art Featured artists Pablo Picasso Edmond Fortier Paul Cizanne George Braque Henri Le Fauconnier Jean Metzinger Fernand Liger Juan Gris Albert Gleizes Henri Laurens Salvador Dalm Brassao Robert Delaunay Raymond Duchamp Villon TASCHEN s Basic Art movement and genre series includes a detailed introduction with approximately 30 photographs and a timeline of the most important events political cultural scientific sporting etc that took place during the time period The body of the book contains a selection of the most important works of the epoch each is presented on a 2 page spread with a full page image and on the facing page a description interpretation

Pop Art Klaus Honnef, 2004 Originating in England in the mid 1950s Pop Art developed its full potential in the USA in the 1960s It substitutes the everyday for the splendid mass produced articles are assigned the same importance as one offs the difference between high culture and popular culture is swept away Media and advertising are among the preferred contents of Pop Art which celebrates the consumer society in its own witty fashion The enthusiasm generated by Pop Art since the first works were exhibited has never died down it is greater today than ever before Book jacket

Expressionism Norbert Wolf, Uta Grosenick, 2004 Expressionism is a style of art in which the intention is not to reproduce a subject accurately but instead to portray it in such a way as to expressthe inner state of the artist The movement is also associated with Germany in particular and was influenced by such emotionally charged styles as Symbolism Favism and Cubism Leading Expressionists included Wassily Kandinsky George Grosz Franz Marc and Amadeo Modigliani

Angela Dalle Vacche,2012-06-12 In the footsteps of Andre Bazin this anthology of 15 original essays argues that the photographic origin of twentieth century cinema is anti anthropocentric Well aware that the twentieth century stands out as the only period in history with its own photographic film record for posterity Angela Dalle Vacche has convened international scholars at The Sterling and Francine Clark Art Institute and asked them to rethink the history and theory of the cinema as a new model for the museum of the future By exploring the art historical tropes of face and landscape and key areas of film studies such as early cinema Soviet film theory documentary the avant garde and the newly born genre of the museum film this collection includes detailed discussions of installation art and close analyses of media relations which range from dance to painting to performance art Thanks to the title of Andre Malraux s famous project Film Art New Media Museum Without Walls invites readers to reflect on the museum of the future where twentieth century cinema will play a pivotal role by interrogating the relation between art and science technology and nature from the side of photography in dialogue with digitalization **Surrealism** Cathrin Klingsöhr-Leroy,2004 Introduction with 30 photographs plus a timeline of the most important political cultural scientific and sporting events that took place during the movement 35 most important works and artists included
