The Avtomat Kalashnikov was adopted in 1947 as the standard Russian military rifle. It has also been produced in large quantities by various Eastern-bloc nations, as well as in civilian versions in other countries. While there are slight variations in some of the non-Russian versions, there are no major mechanical differences that would affect the takedown. The gun shown here was made by the Maadi factory in Egypt.

Prepper's Medical Manual James C. Jones,2023-03-14 Be Prepared to Face Any Medical Emergency With This Essential Guide While many first aid manuals provide valuable instructions on how to respond to various medical situations they may not meet the needs of the average citizen preparing to meet a broad range of medical emergencies with limited skills limited

supplies and limited or non-existent support from the Emergency Management System and medical professionals. In this color photo illustrated manual, veteran survivalist and trained EMT James C. Jones did not create just another first aid book. Instead, each subject is approached from the perspective of equipping the untrained citizen to provide care for family members and neighbors under extremely trying conditions without expert help. Prepper's Medical Manual includes basic first aid subjects such as bandaging, splinting, control of bleeding, and treatment of shock, along with those subjects specifically associated with the needs of those responding to true disaster emergencies. Complete with multiple step-by-step response guides and checklists for stocking personal medical emergency kits, Prepper's Medical Manual can ensure readiness for even the worst case scenario.
