Appealing To Justice Prisoner Grievances Rights And Carceral Logic:

Appealing to Justice Kitty Calavita, Valerie Jenness, 2014-12-12 Having gained unique access to California prisoners and corrections officials and to thousands of prisoners written grievances and institutional responses Kitty Calavita and Valerie Jenness take us inside one of the most significant yet largely invisible institutions in the United States Drawing on sometimes startlingly candid interviews with prisoners and prison staff as well as on official records the authors walk us through the byzantine grievance process which begins with prisoners filing claims and ends after four levels of review with corrections officials usually denying requests for remedies *Appealing to Justice* is both an unprecedented study of disputing in an extremely asymmetrical setting and a rare glimpse of daily life inside this most closed of institutions Quoting extensively from their interviews with prisoners and officials the authors give voice to those who are almost never heard from These voices unsettle conventional wisdoms within the sociological literature for example about the reluctance of vulnerable and or stigmatized populations to name injuries and file claims and about the relentlessly adversarial subjectivities of prisoners and correctional officials and they do so with striking poignancy Ultimately *Appealing to Justice* reveals a system fraught with impediments and dilemmas which delivers neither justice nor efficiency nor constitutional conditions of confinement

Overseeing Rights in Prison Sophie van der Valk, 2025-06-20 Drawing on Ireland as its primary case study this book is an in depth critical examination of how rights protection bodies and mechanisms are experienced by those in prison in Ireland Through its analysis of the Irish experience the book considers the implementation of and challenges faced by human rights protection within the prison context and explores some of the reforms that Ireland has undertaken in this area over the past 15 years including the introduction of a new complaint system and establishment of an Office of the Inspector of Prisons

Using a wealth of information gathered through interviews and surveys of participants in three male prisons the book sets out personal experiences of such mechanisms and identifies the key barriers to effective rights protection Offering a detailed presentation of the international framework for the protection of prisoners rights through oversight mechanisms and proposing methods for overcoming common barriers *Overseeing Rights in Prison The Irish Experience of Human Rights Protection in Prisons* will be of interest to students and scholars of criminology particularly in relation to prisons and human rights

Carceral Logics Lori Gruen, Justin Marceau, 2022-04-14 Carceral logics permeate our thinking about humans and nonhumans We imagine that greater punishment will reduce crime and make society safer We hope that more convictions and policing for animal crimes will keep animals safe and elevate their social status The dominant approach to human animal relations is governed by an unjust imbalance of power that subordinates or ignores the interest nonhumans have in freedom In this volume Lori Gruen and Justin Marceau invite experts to provide insights into the complicated intersection of issues that arise in thinking about animal law violence mass incarceration and social change Advocates for enhancing the legal status of animals could learn a great deal from the history and successes and failures of other social movements Likewise social change lawyers as well as animal advocates might learn lessons from each other about the interconnections of oppression as they work to achieve liberation for all This title is also available as Open Access on Cambridge Core

Carceral Communities in Latin America Sacha Darke, Chris Garces, Luis Duno-Gottberg, Andrés Antillano, 2021-03-27 This book gathers the very best academic research to date on prison regimes in Latin America and the Caribbean Grounded in solid ethnographic work each chapter explores the informal dynamics of prisons in diverse territories and countries of the region Venezuela Brazil Bolivia Honduras Nicaragua Colombia Puerto Rico Dominican Republic while theorizing how day to day life for the incarcerated has been forged in tandem between prison facilities and the outside world The editors and contributors to this volume ask how have fastest rising incarceration rates in the world affected civilians lives in different national contexts How do groups of prisoners form broader and more integrated carceral communities across day to day relations of exchange and reciprocity with guards lawyers family associates and assorted neighbors What differences exist between carceral communities from one national context to another Last but not least how do carceral communities contrary to popular opinion necessarily become a productive force for the good and welfare of incarcerated subjects in addition to being a potential source of troubling violence and insecurity This edited collection represents the most rigorous scholarship to date on the prison regimes of Latin America and the Caribbean exploring the methodological value of ethnographic reflexivity inside prisons and theorizing how daily life for the incarcerated challenges preconceptions of prisoner subjectivity so called prison gangs and bio political order Sacha Darke is Senior Lecturer in Criminology at University of Westminster UK Visiting Lecturer in Law at University of S o Paulo Brazil and Affiliate of King s Brazil Institute King s College London UK Chris Garces is Research Professor of Anthropology at Universidad San Francisco de Quito Ecuador and Visiting Lecturer in

Punished for Aging Adelina Iftene, 2019-07-22 Built around the experiences of older prisoners Punished for Aging looks at the challenges individuals face in Canadian penitentiaries and their struggles for justice Through firsthand accounts and quantitative data drawn from extensive interviews this book brings forward the experiences of federally incarcerated people living their golden years behind bars These experiences show the limited ability of the system to respond to heightened needs while also raising questions about how international and national laws and policies are applied and why they fail to ensure the safety and well being of incarcerated individuals In so doing Adelina Iftene explores the shortcomings of institutional processes prison monitoring mechanisms and legal remedies available in courts and tribunals which leave prisoners vulnerable to rights abuses Some of the problems addressed in this book are not new however the demographic shift and the increase in people dying in prisons after long inadequately addressed illnesses with few release options adds a renewed sense of urgency to reform Working from the interview data contextualized by participants lived experiences and building on previous work Iftene seeks solutions for such reform which would constitute a significant step forward not only in protecting older prisoners but in consolidating the status of incarcerated individuals as holders of substantive rights

Crime and Justice, Volume 50 Michael Tonry, 2022-07-01 Since 1979 the Crime and Justice series has presented a review of the latest international research providing expertise to enhance the work of sociologists psychologists criminal lawyers justice scholars and political scientists The series explores a full range of issues concerning crime its causes and its cures In both the review and the thematic volumes Crime and Justice offers an interdisciplinary approach to address core issues in criminology

Prison Violence Kate Gooch, 2025-07-02 This book analyses the nature causes logic and culture of prison victimisation in an English young offender institution for young men aged 18 21 years old Drawing on ethnographic and qualitative research this book offers a comprehensive analysis of the gendered situational individual and moral components of prison victimisation It explores how wider technological economic policy political and cultural changes have altered the texture and structure of prison life and prison violence and with what consequences Ultimately the book argues that high levels of prison violence are not inevitable Rather the prevention of prison violence requires a just lawful humane and hopeful environment and failing to create such is tragically life changing for young prisoners

The Legal Process and the Promise of Justice Rosann Greenspan, Hadar Aviram, Jonathan Simon, 2019-06-13 Malcolm Feeley one of the founding giants of the law and society field is also one of its most exciting diverse and contemporary scholars His works have examined criminal courts prison reform the legal profession legal professionalism and a variety of other important topics of enduring theoretical interest with a keen eye for the practical implications In this volume *The Legal Process and the Promise of Justice* an eminent group of contemporary law and society

scholars offer fresh and original analyzes of his work They asses the legacy of Feeley s theoretical innovations put his findings to the test of time and provide provocative historical and international perspectives for his insights This collection of original essays not only draws attention to Professor Feeley s seminal writings but also to the theories and ideas of others who inspired by Feeley have explored how courts and the legal process really work to provide a promise of justice

Working Law Lauren B. Edelman,2016-11-28 Since the passage of the Civil Rights Act virtually all companies have antidiscrimination policies in place Although these policies represent some progress women and minorities remain underrepresented within the workplace as a whole and even more so when you look at high level positions They also tend to be less well paid How is it that discrimination remains so prevalent in the American workplace despite the widespread adoption of policies designed to prevent it One reason for the limited success of antidiscrimination policies argues Lauren B Edelman is that the law regulating companies is broad and ambiguous and managers therefore play a critical role in shaping what it means in daily practice Often what results are policies and procedures that are largely symbolic and fail to dispel long standing patterns of discrimination Even more troubling these meanings of the law that evolve within companies tend to eventually make their way back into the legal domain inconspicuously influencing lawyers for both plaintiffs and defendants and even judges When courts look to the presence of antidiscrimination policies and personnel manuals to infer fair practices and to the presence of diversity training programs without examining whether these policies are effective in combating discrimination and achieving racial and gender diversity they wind up condoning practices that deviate considerably from the legal ideals
