 MODEL 824D (924039)

A heavy-duty Sno-Thro that can handle just about any snow condition winter might throw your customers' way. It's an 8 hp Deluxe model, and it clears a 24" wide path. It has differential drive with lock-out for easier use with rotary mower and brush attachments.

Snow is discharged from three to 30 feet away in any direction through the 230-degree rotating discharge chute. All controls are reached by the operator from his position behind the handlebars. On the handlebar panel are speedshift (choice of five forward speeds, one reverse), auger/impeller

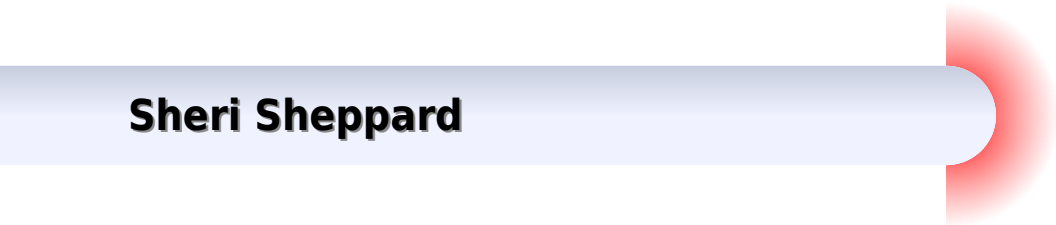

clutch control and throttle.

Gasoline tank capacity is a generous one-gallon, which means the operator can do a sizeable amount of snow-clearing without stopping to refuel.

Add to these features, Ariens performance-proven belt, gear and chain drive through friction disc clutch, and you have an Ariens Deluxe Sno-Thro ideal for those customers who have large areas to clear and want it done with comparative ease and efficiency.
