 To meet the challenges facing the Army the Army needs predictor measures that will enhance entry level Soldier selection

and classification One of the purposes of the Army Research Institute for Behavioral and Social Sciences ARI's Army Class project is to provide the Army with recommendations on which predictor measures in particular measures of non cognitive attributes e g interests values and temperament demonstrate the greatest potential to inform entry level Soldier selection and classification decisions The present report documents the development of criterion measures to assist in these analyses A second purpose of the Army Class project is to develop and pilot job knowledge tests JKTs that can be used to aid reclassification decisions If Soldiers are shown to possess critical knowledge skills and attributes KSAs for their new jobs this could reduce training requirements and increase force readiness This report documents the development of reclassification JKT test items **Army**,1999 *Weapon Systems*,2013 **U.S. Army Weapons Systems 2009** U.S. Department of the Army,Department of the Army,2008-11-17 In addition it covers cutting edge tech that will soon be employed by our soldiers missiles small arms biological detection systems rockets reconnaissance systems radios planes bows and arrows believe it or not you name it this book has it Also included is a thorough discussion of Future Combat Systems FCS the system of systems that when fully operational will provide the Army and joint forces with unprecedented capability to see the enemy engage him on our terms and defeat him on the twenty first century battlefield Full color photographs illustrate each weapon making this the most comprehensive and up to date resource of its kind Ordnance,1992
