life and the complex relationships between iconic brothers including the Thoreaus the Van Goghs and the Marxes *The Myth of Martyrdom* Adam Lankford,2013-01-22 The Myth of Martyrdom presents a startling look at the deepest darkest secrets that terrorists pray you ll never know For decades experts from the most powerful governments and prestigious universities around the world have told us that suicide bombers are psychologically normal men and women driven by a single minded purpose self sacrifice As it turns out this claim originated with the terrorist leaders themselves who insisted that they would never recruit mentally unstable people to carry out suicide attacks As these strikes have become both increasingly common and increasingly deadly no one has challenged this conventional wisdom These are fearless ideological warriors we re told who have the same resolve and commitment to their beliefs as our own Navy SEALs because they re willing to die for the sake of their cause In The Myth of Martyrdom Adam Lankford argues that these so called experts have it all wrong The truth is that most suicide terrorists are like any other suicidal person longing to escape from unbearable pain be it depression anxiety marital strife or professional failure Their martyrdom is essentially a cover for an underlying death wish Drawing on an array of primary sources including suicide notes love letters diary entries and martyrdom videos Lankford reveals the important parallels that exist between suicide bombers airplane hijackers cult members and rampage shooters The result is an astonishing account of rage and shame that will transform the way we think of terrorism forever We can t hope to stop these deadly attacks Lankford argues until we understand what s really behind them This timely and provocative book flips a decades old argument on its head and has huge implications for our future **Our Boston** Andrew Blauner,2013 An anthology of essays about Boston and what it means to the contributors including Susan Orlean Kevin Cullen Mike Barnicle Pico Iyer and many more *The Good Book* Andrew Blauner,2017-03-28 A collection of previously unpublished pieces by 32 of today s most prominent writers shares their thoughts about biblical passages they find personally meaningful in a volume that includes contributions by such figures as Edwidge Danticat Tobias Wolff and Ian Frazier NoveList **Central Park** Andrew Blauner,2012-04-24 An anthology of literary luminaries on the world s most famous park **Papa, PhD** Mary Ruth Marotte,Paige Reynolds,Ralph James Savarese,2011 A collection of personal essays from men who wrestle with what it means to be a father in academia today Organized in three sections the stories of the contributors depict not merely a balancing act of parenting teaching and writing but also the revelatory collision and occasional fusion of competing identities Essays in the first section Fathers in Theory Fathers in Praxis focus on challenges related to merging work and parenting The authors contemplate to what degree we engage our children in the academy while also allowing them to grow independently recognizing the challenge of keeping the roles of parent and teacher distinct The second section Family Made explores fatherhood against the grain and includes narratives of single dads fathers raising children with disabilities biracial families and other non traditional parenting situations Forging New Fatherhoods the third section articulates the strategies created by men to balance diapers and a doctorate or to reconcile fatherhood with

professional ambition The contributors reflections reveal how fatherhood is instrumental to their successes and failures in the workplace and demonstrate that the relationship between fatherhood and academia is a rich and legitimate subject for study *The SAGE Encyclopedia of Terrorism, Second Edition* Gus Martin,2011-06-15 Six years after publication of the first edition of the best selling Encyclopedia of Terrorism much has changed on the national security scene Despite the dark promises of Osama bin Laden following the 9 11 attacks the United States has not experienced any major domestic terror incidents Al Qaeda itself is believed to be a severely crippled organization But while U S wars in Afghanistan and Iraq not to mention the arrival of the Obama administration a new balance of power within Congress and an increasingly fragile economic picture have significantly affected the national security picture the threat of economic chaos and massive loss of life due to terror attacks has not abated Indeed in July 2008 analysts pointed out that even a relatively small terrorist organization could present a dire threat with some experts arguing that a biological chemical or even nuclear attack on a major U S city is all but inevitable In this highly charged rapidly shifting environment we are pleased to present the The SAGE Encyclopedia of Terrorism Second Edition a thoroughly updated and expanded edition of the original highly regarded reference work Nearly 100 000 words of new material will be added along with fully updated original entries and expanded coverage New introductory essays will explore the impact of terrorism on economics public health religion and even pop culture Ethical issues such as the role of torture in interrogations competing notions of security versus liberty and the debates over FISA legislation and Guantanamo Bay will also be covered Two dozen entries on significant recent events such as the London bombings Chechen attacks on Russian interests and the rescue of Ingrid Bettancourt and some 60 additional new entries will restore the work as an up to the minute natural first stop for researchers *The Double* Edward Cletus Sellner,2013 Drawing upon theology Jungian psychology literature and the history of Christian spirituality this book shows how same sex desire can be reflected in those close intimacy between gay men
