### **BSA BANTAM D1-D3-D5-D7 'SERVICE SHEETS' 1948-1966 RIGID, SPRING FRAME AND SWING ARM**

**125cc-150cc-175cc MODELS** Floyd Clymer, 2021-08-16 162 pages and more than 200 illustrations and charts size 8 25 x 10 75 inches In 1945 after the war had ended BSA resumed production of their civilian line of motorcycles However they continued their pre war practice of publishing repair overhaul and technical information in the form of individual Service Sheets These sheets were dealer only publications and as such the print quality was at times somewhat questionable It was not until the early 1960 s that BSA eventually started publishing model specific workshop manuals that were available to the general public Consequently these Service Sheets were the only publications available for the maintenance and repair of BSA models that were manufactured through the early 1960 s At some point in the 1930 s BSA adopted the practice of identifying their various model types by groups and the models manufactured from 1945 through the mid 1960 s were in Groups A B C D and M The service sheets that were associated to a particular group were identified numerically and while there were some exceptions due to overlapping data between models in general terms the numbers relate to a particular model group They are as follows The 200 series of service sheets were applicable to Group A models the 300 series to Group B the 400 series to Group C the 500 series to Group D and the 600 series to Group M In addition there were a 700 series applicable to mechanical maintenance and an 800 series for electronic service and wiring diagrams Both the 700 and 800 series of service sheets contained information that was not model specific but was applicable across multiple model groups Unfortunately as these service sheets were issued individually and at random times the numbering sequence within any group is at times illogical and not necessarily consecutive Consequently assembling those individual sheets into a publication that serves as a model specific workshop manual is a somewhat difficult task and owners of BSA motor cycles are subjected to considerable confusion surrounding the appropriate selection from the multitude of reprints that have recently flooded the on line marketplace Many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling Many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished In addition they are often advertised for the incorrect series and or model years of motorcycles The most complete compilation of the 1945 and onwards service sheets was issued by BSA in the form of a dealer only ring binder that contained all of the individual service sheets totaling to almost 500 pages it is extremely scarce and difficult to find This manual includes the 27 service sheets 84 pages published by BSA under part number 00 4020 However an additional 15 service sheets have been added from that dealer only publication to produce a single manual containing 42 service sheets 150 pages that cover the 1948 to 1966 rigid spring frame swing arm D1 D3 D5 and D7 Bantam Obviously as the 1966 D10 and the 1968 to 1970 D14 models share many mechanical similarities with the D7 this manual will also be of use to owners of

those later models Please note that service sheets other than those in the 500 series that are included in this publication may also contain data that is applicable to other model groups as that was the original intention For additional information the reader is directed to The Book of the BSA Bantam ISBN 9781588502100 which covers all Bantam models from 1948 to 1971

*BSA D14 Bantam Workshop Manual & Instruction Manual* FLOYD. CLYMER, 2021-11-16 158 pages and more than 130 illustrations and charts size 8 25 x 10 75 inches This publication is a compilation of two original BSA factory manuals Workshop Manual part number 00 4152 and Instruction Manual part number 00 4140 Both of these manuals are identified by the factory as appropriate for the 4 speed D14 4 Supreme Sports and Bushman models that were introduced in August 1967 However this manual hits the sweet spot of the 4 speed Bantam series as both the earlier D10 Sports and Bushman 4 speed models 1966 to 1967 and the later D175 1969 to 1971 share many of the same design attributes and mechanical components For information on the earlier 1948 to 1966 models the BSA Bantam Service Sheet Manual ISBN 9781588502506 is recommended It contains 42 service sheets 150 pages that cover the 1948 to 1966 rigid spring frame swing arm D1 D3 D5 and D7 Bantam However as the prior year D7 was effectively identical to the 1966 1967 D10 Silver and Supreme models this manual will be of use to owners of those models also The reader may also find The Book of the BSA Bantam ISBN 9781588502100 useful as it covers all Bantam models from 1948 to 1971 It should be noted that BSA model years ran from August through July For example the 1968 models were released in August 1967 the 1969 models in August 1968 etc VelocePress com has been publishing reprints of motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be assured you are purchasing a quality product We encourage you to exercise caution when purchasing a manual for your motorcycle as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling Many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished In addition they are often advertised for the incorrect series and or model years of motorcycles
