Dual Language Education Kathryn J. Lindholm-Leary,2001-01-01 Dual language education is a program that combines language minority and language majority students for instruction through two languages This book provides the conceptual background for the program and discusses major implementation issues Research findings summarize language proficiency and achievement outcomes from 8000 students at 20 schools along with teacher and parent attitudes

Assessment Engineering in Test Design Richard M. Luecht,2025-01-20 Assessment Engineering in Test Design presents an engineering inspired multi disciplinary approach to the field of applied measurement that bridges the gap between the craft of item writing and test design the statistical sophistication of psychometric methods for scale development and maintenance and score interpretations This book directly addresses the topic of next generation assessment design head on by proposing a new perspective a new understanding of the challenge of designing developing and implementing large and small scale educational testing programs It introduces Assessment Engineering AE as a principled approach to test design where human judgment and creative license during test blueprinting and item writing are replaced with carefully developed cognitive task models that can generate highly consistent test forms that support intended statistical score scale properties and interpretations over time In doing so it shows how AE integrates key technologies and design principles from industrial engineering cognitive science information technology machine learning and artificial intelligence data science statistical

quality control and advanced psychometrics to the practice of test design and development Ultimately this integrated approach offers improved and more consistent overall assessment quality implementation of highly structured designs and scalable automation to reduce item production costs reduction of item pretesting costs and exposure improved calibration and scale maintenance over time and more consistent generation and deployment of very high quality low cost test items to meet both low and high volume production demands over time Written by a major contributor to the literature on test design and scoring Assessment Engineering in Test Design is an essential read for all students of psychology and related disciplines as well as test developers and psychometricians

Reconceptualizing STEM Education Richard A. Duschl, Amber S. Bismack, 2016-01-08 Reconceptualizing STEM Education explores and maps out research and development ideas and issues around five central practice themes Systems Thinking Model Based Reasoning Quantitative Reasoning Equity Epistemic and Ethical Outcomes and STEM Communication and Outreach These themes are aligned with the comprehensive agenda for the reform of science and engineering education set out by the 2015 PISA Framework the US Next Generation Science Standards and the US National Research Council's A Framework for K 12 Science Education The new practice focused agenda has implications for the redesign of preK 12 education for alignment of curriculum instruction assessment STEM teacher education and professional development postsecondary further and graduate studies and out of school informal education In each section experts set out powerful ideas followed by two eminent discussant responses that both respond to and provoke additional ideas from the lead papers In the associated website highly distinguished nationally recognized STEM education scholars and policymakers engage in deep conversations and considerations addressing core practices that guide STEM education

10 Full Syllabus Mock Tests for JEE (Advanced) Career Point Kota, 2020-07-17 Knowledge is not sufficient when it comes to secure a seat in one of the IITs The student must develop skills to translate knowledge into performance on the JEE Advanced examination day We have observed that many talented students fail in JEE Advanced in spite of having talent capability and a strong will to succeed Due to lack of confidence poor examination temperament time management the insufficient practice of taking an exam in actual examination conditions To overcome this a student should do sufficient practice by taking similar tests several times before the FINAL exam so that student develops all requisite competitive skills to get success in the final examination With this objective in mind we are presenting this book before you containing full syllabus tests as per the latest pattern These tests will give you an exact feel of the paper before the FINAL test Salient features of the book are Relevant high quality Test Papers prepared by highly experienced faculty members of Career Point to provide real exam like practice Detailed solution of each test paper for self evaluation to cross check your question solving approach and highlight your weak areas to improve It familiarizes the student with the latest examination trends Help students to plan the question paper attempt strategy to bring out the maximum output Increases speed accuracy and builds confidence to face the competitive examination Develops sound examination temperament in students to face the

competitive examination with a supreme state of confidence to ensure success The students are advised to take these tests in the prescribed time limit by creating an exam like environment at home Additionally after taking the test the student should properly analyze the solutions and must think of alternative methods linkage to the solutions of identical problems Also find your weak areas for further improvement We firmly believe that the book in this form will help a genuinely hardworking student We have put our best efforts to make this book error free However if you find errors that may have crept in and we would appreciate it if brought to our notice Additionally we wish to utilize the opportunity to place on record our special thanks to all the members of the Content Development team for their efforts to create this excellent book
