Handbook of Research on Bullying in Media and Beyond Sari, Gülşah, 2022-08-19

Bullying has been an issue for generations across fields and industries and can affect children as well as adults. With the rise of social media in recent years, bullying has evolved to include new forms such as cyberbullying and peer bullying. In the past, victims were able to escape their bullies in safe places such as their homes. Nowadays, with technology keeping society constantly connected, bullies are able to exert their influence at all times. This is taking a far greater mental toll on bullied adults and children, leading to burnout in the workplace, stress, anxiety, depression, and more. To understand and develop possible solutions to prevent bullying, further study is required. The *Handbook of Research on Bullying in Media and Beyond* considers the various forms of bullying and analyzes their representation in the media.
