Navigating Life Transitions for Meaning Elizabeth M. Altmaier, 2020-07-07 *Navigating Life Transitions for Meaning* explores the central human motivation of meaning making and its counterpart meaning disruption. The book describes different types of specific transitions, details how specific transitions affect an individual differently, and provides appropriate clinical approaches. The book examines the effects of life transitions on the component parts of meaning in life, including making sense, coherence, driving life goals, purpose, significance, mattering, and continuity. The book covers a range of transitions, including developmental (e.g., adolescence to adulthood), personal (e.g., illness onset, becoming a parent, and bereavement), and career (e.g., military deployment, downshifting, and retiring). Life transitions are experienced by all persons, and the influence of those transitions is tremendous. It is essential for clinicians to understand how transitions can disrupt life and how to help clients successfully navigate these changes. Covers cultural transitions such as immigration and religious conversion. Examines health transitions such as cancer survivorship and acquired disability. Uses a positive psychology framework to understand transitions. Includes bulleted take away summaries of key points in each chapter. Provides clinical applications of theory to practice.

Traditions of Death and Burial Helen Frisby, 2019-09-19 Death has been a source of grief and uncertainty for humanity throughout history but it has also been the inspiration for a plethora of fascinating traditions The covering of mirrors to prevent the departed spirit from seeing itself the passing bell rung to assist the soul to heaven the sin eater who

sat beside a coffin eating and drinking to absorb the corpse's sins all of these were common approaches at one time or another Yet in the modern day death has become more clinical than spiritual something kept hidden behind closed doors This beautifully illustrated history explores English approaches to death and burial from the medieval era to the present day exploring ancient customs which have long since lapsed those such as lighting candles that have survived until the present day and new approaches such as eco burials which are changing how we relate to death dying and the dead
