The Impossible Has Happened Lance Parkin, 2016-07-19 A biographer goes in search of Gene Roddenberry creator of the world's most successful science fiction franchise. This book reveals how an undistinguished writer of cop shows set out to produce *Hornblower* in space and ended up with *Star Trek* an optimistic almost utopian view of humanity's future that has been watched and loved by hundreds of millions of people around the world. He looks at the view that the early *Star Trek* advanced a liberal egalitarian and multi-racial agenda charts the various attempts to resuscitate the show during its wilderness years in the 1970s explores Roddenberry's initial early involvement in the movies and spin off *Star Trek: The Next Generation* as well as his later estrangement from both and sheds light on the colorful personal life self-mythologizing and strange beliefs of a man who nonetheless gifted popular culture one of its most enduring narratives.
