answers this question by reviewing what is known about the connection between authentic transformational leadership and positive psychology. He summarizes a wealth of leadership knowledge in a unique collection of captivating stories about 25 famous leaders from business history and pop culture: Aung San Suu Kyi, John F. Kennedy, Maya Angelou, Bill Gates, Brian Wilson, Rosa Parks, Martin Luther King Jr., Joe Namath, Malala Yousafzai, Mother Teresa, Angelina Jolie, Pope Saint John Paul II, Shirley Chisholm, Sheryl Sandberg, Andy Griffith, Margaret Thatcher, Oprah Winfrey, Nelson Mandela, Warren Buffett, Carlos Ghosn, Eleanor Roosevelt, Herb Kelleher, Steve Jobs, Johnny Cash, and Fred Rogers. What do these leaders have in common? Each possesses virtues of wisdom, courage, humanity, justice, temperance, and transcendence, and their associated character strengths that form the foundation of their outstanding leadership. Besides generating astonishing results for their organizations, these leaders reaped numerous physical, mental, social, and spiritual benefits from their strong character. Their stories teach readers leadership principles that they too can apply to achieve sustainable growth and excellence. The Entrepreneurial State Mariana Mazzucato, 2024-02-06. Award-winning economist Mariana Mazzucato's famously incisive international bestseller debunking the pervasive myth of the inept state versus an innovative private sector with a new preface by the author. According to conventional wisdom, innovation is best left to the bold entrepreneurs of the private sector, and government should get out of the way. But what if that wasn't the case? What if, from the inventions of Silicon Valley to medical breakthroughs, the public sector has actually been the most courageous and valuable risk taker of all? Critically acclaimed and influential thinker and scholar Mariana Mazzucato argues comprehensively against the myth of a lumbering bureaucratic state versus a dynamic innovative private sector with remarkable original and deep research. In a series of case studies from nanotechnology to the emerging green tech of today, Mazzucato reveals that the opposite is true: the private sector only finds the courage to invest after an entrepreneurial state has made the high-risk investments. *The Entrepreneurial State* reveals how every technology that makes the iPhone so smart was actually funded by the government, from the Internet and GPS technology to touch screen displays and voice-activated Siri. In the history of modern capitalism, the State has not only fixed market failures but has also actively shaped and created markets. In doing so, it sometimes wins and sometimes fails. Yet by not admitting the State's role in active risk-taking, we've created an innovation system where the public sector socializes risks while privatizing reward, as Mazzucato controversially argues. This bold and provocative book considers how we adopted this dysfunctional dynamic and then how we can overcome it so that economic growth can be not only smart but inclusive as well.
