Watch Book Scott McNulty, 2015-07-22 The Apple Watch is more than a timepiece and a fashion accessory The watch is designed to be a very personal assistant from paying for groceries or a coffee to keeping a detailed record of your daily physical activity Author Scott McNulty has organized the book around events and activities showing how to use the watch in various settings The book starts off with an essential Apple Watch 101 section that gets you up and running quickly You learn the watch's gestures and presses how to use the digital crown and how to change the band for example Scott then looks at how to use the watch in different settings At work how to set tasks and check email After work how to meet up with friends find a place to eat and get directions At the gym how to monitor your workout activities and monitor your heart rate And you don't have to be at the gym Learn how to use the watch to track your daily physical activities from how much you walk each time to gentle reminders to get up and move if you've been sitting too long Organized around your life this book will help you get the most from your Apple Watch Readers will learn how to Set up the watch and pair it with their iPhone Manage messages calls notifications and mail Make sketches and use as a walkie talkie Monitor their workout activities and set and achieve goals Use Apple Pay Listen to music using Maps take photos and more

The Ridiculously Simple Guide to Apple Watch Series 4 Scott La Counte, 2019-10-19 The stage was set in September 2018 It was iPhone's big event The day where journalist and Apple fans alike lusted over the latest and greatest iPhone But a funny thing happened on the way to the announcement Apple Watch Series 4 took everyone's breath away The Apple Watch has of course been around for three years and seen several updates But 2018 was different the watch was finally ready for the masses This wasn't a watch for early adopters or fitness buffs this was the watch your parents and grandparents would get behind In addition to all the great features Apple Watch has always had series 4 is slimmer yet with a screen that is somehow bigger has optional cellular for making phone calls and streaming music without your phone and drop detection so if you fall and can't get up the fire department is dispatched to your location Everything about it was designed to motivate you to be more active As amazing as all the new features are it's not quite as easy to use as an iPhone the lack of buttons the smaller screen and general UI can make a frustrated initial experience The point of this book is to help new Apple Watch users and users updating to Watch OS 6 from an older device get the most out their investment Are you ready to start enjoying your new Apple Watch Then let's get started Note This book is not endorsed by Apple and should be considered unofficial
