Apple Device Management Charles Edge, Rich Trouton, 2019-12-17 Working effectively with Apple platforms at a corporate or business level includes not only infrastructure but a mode of thinking that administrators have to adopt to

find success A mode of thinking that forces you to leave 30 years of IT dogma at the door This book is a guide through how to integrate Apple products in your environment with a minimum of friction Because the Apple ecosystem is not going away You ll start by understanding where Apple third party software vendors and the IT community is taking us What is Mobile Device Management and how does it work under the hood By understanding how MDM works you will understand what needs to happen on your networks in order to allow for MDM as well as the best way to give the least amount of access to the servers or services that s necessary You ll then look at management agents that do not include MDM as well as when you will need to use an agent as opposed to when to use other options Once you can install a management solution you can deploy profiles on a device or you can deploy profiles on Macs using scripts With Apple Device Management as your guide you ll customize and package software for deployment and lock down devices so they re completely secure You ll also work on getting standard QA environments built out so you can test more effectively with less effort Apple is forging their own path in IT They trade spots with Amazon Google and Microsoft as the wealthiest company to ever exist And they will not be constrained by 30 or more years of dogma in the IT industry You can try to shoehorn Apple devices into outdated modes of device management or you can embrace Apple s stance on management with the help of this book What You ll Learn Deploy profiles across devices effectively and securely Install apps remotely both from the app store and through custom solutions Work natively with Apple environments rather than retrofitting older IT solutions Who This Book Is For Mac administrators within organizations that want to integrate with the current Apple ecosystem including Windows administrators learning how to use manage Macs mobile administrators working with iPhones and iPads and mobile developers tasked with creating custom apps for internal corporate distribution **Learning iOS Security** Allister Banks, Charles S. Edge, 2015-02-27 This book is intended for mobile security professionals who want to learn how to secure iOS operating systems and its applications Any knowledge of iOS architecture would be an added advantage **Apple macOS and iOS System Administration** Drew Smith, 2020-05-01 Effectively manage Apple devices anywhere from a handful of Macs at one location to thousands of iPhones across many locations This book is a comprehensive guide for supporting Mac and iOS devices in organizations of all sizes You ll learn how to control a fleet of macOS clients using tools like Profile Manager Apple Device Enrollment Program DEP and Apple Remote Desktop Then integrate your Mac clients into your existing Microsoft solutions for file sharing print sharing Exchange and Active Directory authentication without having to deploy additional Mac specific middle ware or syncing between multiple directory services Apple macOS and iOS System Administration shows how to automate the software installation and upgrade process using the open source Munki platform and provides a scripted out of the box experience for large scale deployments of macOS endpoints in any organization Finally you ll see how to provision and manage thousands of iOS devices in a standardized and secure fashion with device restrictions and over the air configuration What You ll Learn Integrate macOS and iOS clients into enterprise Microsoft environments Use Apple s Volume Purchase Program to manage

App installations and share pools of Apps across multiple users Mass deploy iOS devices with standard configurations Remotely manage a fleet of macOS devices using Apple s Remote Desktop Who This Book Is For System or desktop administrators in enterprise organizations who need to integrate macOS or iOS clients into their existing IT infrastructure or set up a new infrastructure for an Apple environment from scratch **Deploying iPads in the Classroom** Guy
